OLIVER FIGHTS FOR LOWER RATES

Long Discussion in House on Motion Calling on Government to Take Action.

LOSSES OF WESTERN FARMER REVEALED

Government Attacked For Not Having Taken Action Earlier to Remedy Conditions.

Ottawa, Feb. 28.—At midnight the house divided on an amendment to the motion to go into supply, moved by Hon. Frank Oliver in the afternoon, dealing with the grain blockade situation in Western Canada. The amendment was defeated by a vote of 84 to 54, a government majority of 30.

The amendment called upon the government to give further reduction to the West by securing the reduced rates to Duluth and Minneapolis, recently secured on wheat and oats for grinding in bond and for consumption in the United States, also that steps be taken to have the through rates on barley and flax to Duluth and Minneapolis, which became effective on January 23rd, reduced to the Fort William rate.

Hon. Mr. Oliver supported his motion in a lengthy speech, in which he estimated that the loss to the Western farmer from all causes on this season's crop amounts to fifty per cent. He criticized the government for not having taken action earlier to secure the lower rates to Duluth and Minneapolis.

Hon. G. E. Foster in reply said that it would not have been possible for the government to deal with the situation at an earlier date. He blamed the late government for the situation.

Objects to Questions.

During question time, Speaker Sproule took exception to two questions which have been on the order paper for several weeks, on the ground that they were not properly framed. One was a question by F. B. Carvell (Carleton, N.B.) as follows:

"Is the government aware that F. P. Gutelius, recently appointed to the National Transcontinental Railway commission is not a British subject?"

Sir Wilfrid asked why the Speaker objected to the question.

The Speaker said that under the rules a question could not contain an allegation of fact.

Premier Borden took the same view and said incidentally that Mr. Gutelius had not been appointed a member of the commission.

The question will, doubtless, be drafted over again by Mr. Carvell.

Mr. Gutelius, it might be explained, has been appointed a commissioner to inquire into the question of construction of the N.T.R.

Question re Navy.

The other question to which the Speaker took exception stood in the name of P. E. Lamarche (Nicolet), who wants to know if the government intends to furnish the members of the House with an opportunity to discuss the resolution of Mr. Sevigny relating to the naval service, also if it is the intention of the government to permit the House to declare itself on the merits of this resolution by vote either for or against its adoption.

Sir Wilfrid Laurier asked why this question had been ruled out of order.

Speaker Sproule said he had not ruled it out of order, but had simply allowed it to stand until its form could be changed. He proposed to consult the member interested in regard to that. The matter was then allowed to drop.

Federal Aid to Highways.

Hon. Frank Cochrane's resolution for aid to highways was then taken up. The Liberals objected to clause six of the legislation which provided that the minister of railways in Canada shall be given power to construct highways, bridges, and so forth, in any province of the Dominion. They contended that the effect of this clause would be to give the minister the ordinary power of a road builder and that this power could, if so desired, be used for political purposes. They contended that it was unconstitutional and contrary to spirit of the British North America Act.

The Conservatives on the other hand held that the powers given minister with regard to road building was based upon the same principle as dredging or any other public work requiring the expenditure of federal money.

Moves Clause Stricken Out.

After considerable discussion, E. M. McDonald (Pictou, N.S.) moved that this clause be stricken out. Upon a standing vote the motion was defeated by 48 to 53. The bill was then given its second reading and put through the committee stage.

On the motion to go into supply, W. E. Knowles (Moose Jaw) said he wished to read some correspondence which had taken place between the civic authorities of Moose Jaw and the minister of militia. Mr. Knowles then read a communication from the Moose Jaw council to the Hon. Sam Hughes, pointing out that a favorable site for an armory was available in that town and urging that consideration should be given Moose Jaw when the minister sought to secure the best possible place for its erection. The reply of the minister of militia was then read by Mr. Knowles.

Never Heard of Moose Jaw.

Colonel Hughes mentioned among other things that it was the first official intimation that he had received that there was such a place as Moose Jaw on the map. Mr. Knowles said that the letter was worded in such a way as made it unworthy of the honorable minister.

Speaker Sproule here called Mr. Knowles to order, telling him that his language was unparliamentary.

Mr. Knowles said that he would withdraw the remark and substitute instead that the letter was quite worthy of the minister of militia.

Colonel Hughes, replying to Mr. Knowles, said that the letter just read by the member from Moose Jaw had had its desired effect. He had received, he said, a threatening blustering letter from the city council of Moose Jaw, urging in unnecessarily strong language that an armory should be erected in that city, and pointing out that there was a splendid site available for that purpose there.

He learned, however, that this property could not be disposed of by that city, as it was owned by the C. P. R. The letter which he sent brought the city authorities to their sense, with the result that the proper people were being communicated with, and the claim of Moose Jaw for an armory was being given a full and proper consideration.

Mr. Oliver's Motion.

On the motion to go into supply Hon. Frank Oliver moved: "That all the words after 'that' be omitted and the following be substituted therefor: "That the house heard with satisfaction from the minister of trade and commerce that as a result of a conference recently held by him and at his request with representatives of the three railway systems operating in Western Canada, these railways have lowered their rate, making the rate to Duluth and Minneapolis the same as to Fort William and Port Arthur."

"And as a further result of the conference mentioned, application has been made to the interstate commerce commission of the United States for leave to file grain rates from the Northwest down to Minneapolis and Duluth, and so ease the pressure in the congested districts by taking the grain away by more Western routes down towards the South.

"The house is informed by the republic's press that the reduced rates as mentioned have been granted by the Canadian Pacific and Canadian Northern railways on wheat and oats for export only. As the reduction of rates so announced can only effect the situation to a limited degree, the house would urge upon the government the advisability of securing further consideration of the matter by the railway companies with a view to having the reduced rates apply to wheat and oats for grinding, in bond, and for consumption in the United States, as well as for export.

"The house would further urge that such means as may be practicable be taken by the government to have the through rates on barley and flax to Duluth and Minneapolis, which becomes effective on January 23rd, reduced to the Fort William rate."

The Western Grain Blockade.

Proceeding to discuss the resolution Mr. Oliver entered into an explanation of the present grain blockade in the West, and the consequent loss which was resulting to the Western farmers. He said that one of the principal reasons for the blockade this year was that the work of transporting the crop was commenced later than usual. This, combined with other unforeseen difficulties and the seemingly complete inability of the railway companies to cope with the situation rendered the entire situation critical.

W. H. Sharpe (Souris) asked Mr. Oliver what percentage of wheat was spoiled or in any way affected as a result of the blockade.

Mr. Oliver replied that his information was that upwards of 30,000 bushels was damaged and unfit for milling.

The Loss Sustained.

Mr. Oliver explained by an elaborate calculation, the amount of the loss sustained by western farmers owing to natural conditions which could not be avoided, to the grain blockade and to damage which will result to wheat now being held in a heated or unprotected condition. The unavoidable damage he estimated at thirty-five million dollars, the loss due to the railway blockade at eight millions, and the depreciation in the value of the grain at six millions, a total of fifty-one millions, or fifty per cent of the crop. It was argued, he said, that many of the western farmers had been in the country for from 20 to 30 years and should be in a condition to stand the loss. He would point out to the House, however, that during the past four years, homestead entries in the west had totalled 150,000, or as many as in the twenty-eight preceeding years. These figures made it evident that the bulk of the western farmers are not as well established as some might think.

Cold Comfort from Vancouver.

H. H. Stevens (Vancouver) speaking briefly, said that if the farmers of the west provided themselves with the granaries, they would save themselves from big loss. It was unreasonable for them to expect that the great harvest of the west could be transported to the seaboard in the short space of a few weeks.

BIGGEST REALTY DEAL IN HISTORY OF THE CITY

Probably the biggest real estate deal in the history of Edmonton was put through yesterday. The Hagmann Estate, consisting of 145 acres was sold for $850,000. The vendor is J. Hagmann, who has owned the property for the past fourteen years. The buyers could not be learned, but it is understood that the property was purchased by a syndicate of capitalists. This is said to be the biggest deal of its kind in open, unimproved land which has ever taken place in Edmonton.

The Hagmann Estate was purchased by J. Hagmann fourteen years ago from the Hudson's Bay Company for $10 an acre. The sale price yesterday was $5862 an acre. Ever since he purchased it, Mr. Hagmann has farmed the land.

The Hagmann Estate is situated in the north-west part of the city, south of the G.T.P. tracks, and south of the shops of that company and east of North Inglewood subdivision.

When approached by a Bulletin representative last evening, Mr. Hagmann admitted that he had sold the property and named the consideration. He was unable, however, to give any information regarding the purchasers or the firm which put through the deal. It is understood that the property will be subdivided.

ARMSTRONG TO REPORT ON H.B. TERMINALS

Chief Engineer of the Hudson Bay Railway Has Been Notified to Send Out Engineers to Port Nelson and to Churchill.

Winnipeg, Feb. 28.—Chief Engineer Armstrong, of the Hudson Bay railroad, with headquarters here, has been notified by Hon. Frank Cochrane, minister of railways, to send out at once a party of engineers to the Hudson Bay, one to go to Port Nelson and one to Churchill.

They will remain at the ports for a couple of months, taking observations and making surveys as to the suitability of the ports for terminals. Upon the result of these reports and recommendations will largely depend the choice of a harbor for the terminal of the road.

J. D. McArthur, of Winnipeg, who has the contract for the first section from Le Pas, 85 miles to Split lake, was in Ottawa today and interviewed Mr. Cochrane, who, it is reported, gave him instructions to proceed with the work.

DYNAMITE ATTACHED TO TRUCKS OF FREIGHT CAR

Nineteen Sticks Discovered on Boston & Maine Car When It Was Passing Through Philadelphia—Car Inspector Made the Discovery.

Philadelphia, Feb. 28.—Nineteen sticks of dynamite were discovered attached to the trucks of a Boston and Maine freight car here today by a car inspector who was examining the wheels.

The car, which arrived here last Saturday, loaded with paper from Bellows Falls, Vermont, passed through Lawrence, Mass., last Thursday, where it was part of a train composed largely of cars loaded with woolen goods belonging to the American Woolen company, whose workers are on strike.

Officials of the Boston and Maine were at once notified and steps taken, it is said, to trace the other cars which had composed the train.

Winnipeg, Feb. 28.—Albert Smith, a married man, was committed for trial on the charge of seducing a 16-year-old Russian girl.

SHUSTER, FORMERLY OF EDMONTON, KILLED.

Calgary, Feb. 28.—Joseph Shuster, formerly proprietor of the Hotel Cecil and editor of the Deutch Canada, was killed here tonight in a motor accident. His machine ran off the edge of the embankment along the Elbow river. His skull was fractured. Mr. Shuster formerly resided in Edmonton, where he conducted a German newspaper.

TELEGRAPHIC BRIEFS

Winnipeg, Feb. 28.—Prof. Herdt, of Montreal, has been retained as consulting engineer for the city light and power department at a salary of $2,000 a year.

Winnipeg, Feb. 28.—Oscar Sigurdson, the 17-year-old boy who shot his sister when she reprimanded him for laziness, appeared in the city police court and was remanded. The woman still lives.

Brockville, Feb. 28.—A fire, presumably starting by tramps dropping lighted matches, destroyed the barns and contents of Osborne Shaver, a farmer residing in the township of Elizabethtown. Twenty-two head of cattle perished.

MacLeod, Alta., Feb. 28.—The provincial seed fair, which opened here today, was the largest and most successful ever held in Alberta. The entries numbered 350, almost twice as many as last year, and came from all parts of the province.

St. John, N. B., Feb. 28.—On the C. P. R. liner Montcalm, arriving here today, were 60 thoroughbred horses, said to be valued at $66,000. The Montrose also brought twenty valuable horses. The animals are being taken through the West.

Ottawa, Feb. 28.—Both the Ontario and Manitoba Conservative members this morning state that they are satisfied with the terms of the settlement of the Ontario-Manitoba boundary lines as announced in the house last night by Premier Borden.

Winnipeg, Feb. 28.—Mrs. Henry Serkey, wife of a Galician, was arrested today at the instance of her husband, who charged her with the death of her infant. He swore that he was married to her only four months ago and thought her a good woman.

Prince Albert, Sask., Feb. 28.—Word has been received from London of the death on February 9th of George Atwood, senior partner of the firm of Attwood & Hopper, consulting engineers and chief engineer of the Hudson Bay and Pacific railway, which has offices in Prince Albert.

BUSY SUMMER FOR GOVERNOR GENERAL

Their Royal Highnesses the Duke and Duchess of Connaught Will Visit All Provinces of the Dominion Before Next Fall.

Ottawa, Feb. 28—A busy summer is before Their Royal Highnesses the Duke and Duchess of Connaught.

They will traverse Canada from the Atlantic to the Pacific visiting every province, and will hold dinners or levees at the provincial capitals or principal cities. Early in May their Royal Highnesses will go to Montreal for horse show week. They will return to Ottawa and after opening the horse show there will go to on to Toronto for the horse show in that city, where they will spend the week.

Immediately after they go to London and Guelph for a couple of days. In August the royal household will leave for the Maritime provinces, where they will visit St. John, Halifax and Charlottetown. They will do most of their travelling in the east by one of the government steamers. His Royal Highness the Duke of Connaught will spend a few days fishing in New Brunswick, staying at Lord Strathcona's estate.

Early in September the Duke and Duchess of Connaught with their household will start for the west. The details of the trip have not been worked out, but they will leave immediately after the Toronto exhibition which the Duke of Connaught will open. They will make the first stop at Winnipeg and proceed on to the coast with various stops at Vancouver, Victoria and Prince Rupert. Either going or coming they will make stops at Saskatoon, Edmonton, Regina and Calgary and other points of importance. The western trip will last from six weeks to two months.

WANT TO KEEP HINDUS OUT.

Report of Government Commissioner Appointed to Inquire Into Coast Problem Has Reported.

Ottawa, Ont., Feb. 28.—The report of F. C. Blair, who was appointed a special commissioner to inquire into the subject of immigration of Hindus to Canada, is in the hands of the minister of the interior.

It is understood that the report of adverse to further opening of the door to the Hindu people, and states that the admission of the wives of those now in Canada will be a step in the direction of reopening the whole issue. The contentions of Dr. Sunder Singh and his associates are not upheld.

OPPOSE GIVING VOTES TO WOMEN

Anti-Suffragette Campaign Is Launched in Mass Meeting in Albert Hall.

LORD CROMER WAS THE PRESIDING OFFICER

Asquith Writes That Woman Suffrage Would Be a Grave Political Mistake.

London, Feb. 28—An anti-suffragette campaign was launched tonight by a mass meeting in Albert hall which was packed to the doors. The presence of a great number of prominent persons in various walks of life attested to the weighty opposition to the enfranchisement of women.

Lord Cromer, ex-British agent and consul general in Egypt presided while among those on the platform were the Duke of Norfolk and a large number of members of the House of Commons of both parties.

Lord Cromer, Lord Curzon, Lord Loreburn, the Lord Chancellor, and the Right Hon. Lewis Harcourt, secretary for the colonies, made speeches, and a resolution was adopted declaring the enfranchisement of women would be detrimental to their interests and the welfare of the state and ought not to take place unless it was demanded by a majority of electorate.

A letter from Premier Asquith was read in which he said that he believed, as always, that the granting of parliamentary suffrage to women "would be a grave political mistake."

MONKS CHARGED WITH MURDER

Trial Begins at Petrikov—Chief Prisoner Accused of Murdering His Cousin.

Vienna, Feb. 28—The trial opened yesterday at Petrikov, Russian Poland of three monks of the famous Paulitie convent at Czenstochowa, who are charged with murder, sacrilege and other terrible crimes. The chief prisoner is a monk named Damazy Macoch, who is accused of murdering his cousin, Vaclar Macoch, whose body was concealed in a sofa and thrown into the river.

The prosecution declares Vaclar's wife was kept by Damazy in a luxurious flat in Warsaw with money obtained by the sale of gems taken from the richly endowed image of the virgin at the convent.

Cornet Player Was Injured

Calgary, Feb. 28—Struck on the head by a whisky bottle during the first act of "The Barrier" at the Sherman Grand on Thursday night Jules Grand, cornet player in the theatre, was so badly cut by flying glass that it was necessary to call medical aid and several stitches were put in the wound.

C.P.R. TO ESTABLISH PUBLICITY BASE HERE

Edmonton Will Be New Distribution Centre for News of Western Canada's Development to Eastern and United States Press.

An important extension of the publicity work being done by the C. P. R. is to be made. Norman S. Rankin, chief of the publicity department of the company, was in Edmonton on Tuesday, completing the arrangements for a special news service from this city and the surrounding country, dealing with the development of resources in this part of the province.

The matter is one of great interest to this part of Alberta, as great results are attributed to the publicity work done by the C. P. R. in this way. Edmonton will be made the starting point for the distribution of development news in the West to the press of Eastern Canada and the States.

At present the company does not see its way to establish a branch of its natural resources department here, but from correspondence with F. T. Fisher, secretary of the Board of Trade, has had with the company, he has no doubt that the company will in the future establish an office here for the sale of its lands and other purposes connected with its natural resources department.

ROYAL ARCH MASONS

Toronto, Ont., Feb. 28—Senator William Gibson, of Beamsville, for five years treasurer of the grand chapter of the Royal arch Masons of Canada, announced his retirement at the annual convocation today and Past Grand Z George Moore, of Hamilton was elected to succeed him. This was the chief change in the list of officers as this was not a "changing year." Toronto was again chosen as the place of meeting.

J.J. Dunlop is grand superintendent for Edmonton district and Norman T. McLeod for Lethbridge.

THE GOVERNMENT ADMITS FAILURE

Official Statement Has Been Issued Regarding Proposals on Coal Strike.

SOME OF THE OWNERS ACCEPT PROPOSALS

Federation Will Make No Settlement Unless Individual Minimum Wage Conceded.

London, Feb. 28.—The government tonight acknowledges failure to settle the dispute between the coal owners and the miners. Breaking the rule of secrecy and silence which has heretofore been rigidly observed during the course of the negotiations, an official statement was issued regarding the proposals submitted by the prime minister to the representatives of the owners and the miners.

The statement begins by declaring that the government is satisfied that there are cases in which underground workers are not able to earn a reasonable minimum wage. The government is further satisfied that the power to earn such wage should be secured by arrangements suitable to the circumstances of each district, adequate safeguards being provided to protect employes against abuse.

Government Willing to Confer.

The government is prepared to confer with the parties concerned as to the best method of giving practical effect to these conclusions by means of direct strike conferences, a representative appointed by the government being present in the event of a failure to arrive at a settlement within a reasonable time, and representatives appointed by the government to decide jointly any outstanding points.

These proposals, continues the statement, were considered by the representatives of the coal owners this afternoon, with the result that those in the federated area which includes Yorkshire, Lancashire, the Midlands and North Wales accepted, adding that it is expected that the government will make such arrangement as would secure that the agreement be binding to both sides for a reasonable time.

Some Reject Proposals.

The Durham and Cumberland employers also accepted the proposals. They were rejected, however, by the Northumberland, , Scotland, and South Wales coal owners, and also by the representatives of the smaller districts, Forest of Dean, in Gloucester, Somerset and Bristol. More than sixty per cent of the coal trade of the country accepted the proposals. The National Miners' Federation replied to the proposals by adopting the following resolution:

"There can be no settlement of the present dispute unless the principle of an individual minimum wage for all underground workers is agreed to by the coal owners."

MORE IMMIGRANTS FOR BRITISH COLUMBIA

This Will Be One of the Schemes to Be Put Into Effect by Minister Rogers—Is Ready to Co-operate With Provincial Governments.

Ottawa, Feb. 28.—Hon. Robert Rogers announces that it is his intention to enter upon an active policy of co-operation with the various provinces as to immigration. He has told the various provincial governments that the Dominion is prepared to carry out any reasonable policy that may be recommended to improve the conditions of the provinces, and that the Dominion will circulate literature concerning each province which shall be approved by that province.

It is proposed to have two agents for each province who will work in conjunction with the provincial governments. It is not yet decided whether those agents shall work at home or abroad, but it is likely that both will be attempted, one man going to the old country and the other working among immigrants in Canada to persuade them of the attractions of the older provinces as homes with opportunities. At the same time there will be no slackening of the immigration propoganda as regards the West. Perhaps a little more attention will be paid to British Columbia, but in all other respects the policy of the new minister will be practically the same as that of his predecessors.

An Ambitious Scheme

Calgary, Feb. 28—With the object of raising $1,000,000 to build a tabernacle capable of holding 10,000 people, with a choir loft to hold 1,000 trained singers secured from the different churches in the city, a fund has been started in Calgary and if possible the necessary sum will be raised during the year 1913.

SCHOOL BOARD IN PRIVATE SESSION

Heated Debate Over Question of the Status of Two Superintendents.

PRESS EXCLUDED FROM THE MEETING

The School Management Committee Holds a Meeting Earlier In The Day.

WHAT THE BOARD DID IN SECRET SESSION

Jas. McCaig to be superintendent of Grades 1 to 8, comprising all the public schools on both sides of the river.

G. A. McKee, south side, to be appointed senior principal in charge of Grades 9 to 12, which comprises south side Collegiate Institute and Edmonton high school.

The foregoing was the decision arrived at by the Edmonton school board sitting in committee of the whole yesterday afternoon. Although the press was excluded from the meeting the Bulletin is able to state authoritatively from information gained after the meeting, that the above is the recommendation which will be submitted to the board for ratification at its meeting on Monday night.

It is also probable that this recommendation will be adopted by a majority vote of the board who regard it as a solution to the superintendency problem.

Under the new arrangement Superintendent McCaig will have supervision over all the public schools on both sides of the river, while Mr. McKee will bear the title of senior principle and will have charge of the south side Collegiate Institute and the Edmonton high school.

This arrangement is said to be the system which prevails in Toronto, Hamilton and other cities. Toronto is quoted as a concrete example where Senior Principal Embree looks after all the high schools of the city, while J. L. Hughes was until recently inspector of all the public schools.

The question will come up on Monday night, when it is expected that there will be a warm debate on the subject.

With closed doors the Greater Edmonton school board last night discussed the "whole of the matter of the superintendency." The meeting was a special one called primarily for the one object of discussing difficulties which apparently have arisen as to the duties of Jas. McCaig, superintendent of schools in the Edmonton district. That there is considerable friction somewhere was evident from the hesitating manner in which the members of the board approached the subject, and especially from the fact that the board resolved itself into a committee to consider the matter and excluded the representatives of the press, who, nevertheless had been present at the meeting of the school management committee held prior to the meeting of the board. The reason advanced by Walter Ramsey, chairman, for excluding the reporters was "that things were sometimes said in committee which it is not desirable should be published," while W. H. Clarke wanted the press kept out in order that they might discuss the situation in an "off-hand way."

Might Establish Precedent.

Some talk was also heard of establishing a precedent, which it appeared the board were anxious to avoid doing. Hitherto, however, the custom has been to admit press representatives to committee meetings.

On the motion of Dr. Park to allow the press to remain, the board was evenly divided, but the chairman gave his casting vote against the motion.

A Brief Statement.

At the close of the meeting, which lasted about two hours, the reporters in waiting were told that no decision had been arrived at, and that the matter will come before another meeting of the board next Monday. Asked if this meeting would be open to the press W. Ramsey said it would.

"There was," he added, "really no reason why you should have been excluded for nothing has been said which could not have been reported."

A Bulletin representative pointed out that that statement did not tell the public what was the difficulty in regard to the superintendency, but Mr. Ramsey said there was nothing further to say.

Committee "Up Against."

NEWS OF THE SOUTH SIDE

SOUTH SIDE CHILDREN MUST BE VACCINATED

School Board Will Enforce Vaccination Law, Which Has Hitherto Been Loosely Regarded by Strathcona School Trustees—Wholesale Slaughter on South Side."

One effect of the amalgamation of the two cities will be to make the law regarding vaccination of school children compulsory on the South side. The law of the province, which has hitherto been in force in Edmonton, is that every child shall be vaccinated before being admitted to a public school. This stringent regulation is claimed by Dr. J. Parks and others to have been largely responsible for preventing the spread of small pox, in the case of the recent outbreak in the city.

Hitherto the Strathcona board has been lukewarm in the matter and have not enforced the regulation. As a matter of fact, the law provides that teachers are liable to a fine of $50 for not seeing that the regulations are carried out.

At the meeting of the school board yesterday G. A. McKee, superintendent of schools on the South side, pointed out that a good many children on that side of the river had not been vaccinated, and he asked what steps would be taken to even up the situation.

Dr. Dunn, medical inspector of schools, said the children would have to be vaccinated. In Edmonton the teachers had kept an account of the children who had not been vaccinated and given them a reasonable time in which to be treated.

Dr. Craig: "There will be wholesale slaughter on the other side of the river."

Dr. Dunn said the control of vaccination on the other side would belong to the health officer.

At the present time it is the custom in Edmonton where a child is excluded from school on account of infectious disease to send a certificate with the child to the parent and to send another to the health department, which institutes inquiries.

Anti-vaccinationists on the South side are likely to have cause for action in the near future.

LOCALS.

Mrs. George Johnston has recovered from her recent attack of smallpox and has returned to her home. Though it was rather of a severe type, she has fully recovered without a scar.

A couple of cases of measles have developed on the South side, one last week and one this week. These are the only cases of measles on the South side.

Born to Mr. and Mrs. Maurice Rulton, Third avenue southwest, on February 27th, a daughter.

Daniel Benke, of Namayo avenue, has purchased a residence on First avenue north, west of Fifth street, and purposes moving over the river to the South side of the city.

Ormand Ross, a well-to-do farmer of Vegreville, has purchased a residence on Second avenue north and east of Fifth street, and will engage in the cartage business on the South side of the city.

S. C. I. HOCKEY CLUB WIN INTERCOLLEGIATE

Students of Collegiate on South Side Have Won Edmonton's Championship and Will Now Play Calgary Champions for Provincial Intercollegiate Championship.

On Tuesday evening at the Thistle rink was played one of the fastest hockey games of the season in the Intercollegiate Hockey League. The S. C. I. team from the South side defeated the E. A. C. team from the North side, and ran away with the championship of the Intercollegiate Hockey league.

The play was fast from start to finish and remarkably clean, there being but few penalties. The score was 3 to 1 in favor of the garnet and old gold of the collegiate. The South side team all played a star game. Summers in goal, and Lovell at point, especially distinguished themselves.

C. A. Curtis, president of the Collegiate Hockey club, feels proud of the way the Collegiate students have played to win, and loyally supported Manager Lovell and Captain Lynn in their race for the championship cup.

The lineup for the winning team of the S. C. I. champions of the Edmonton Intercollegiate Hockey league was as follows:

Goal—J. Somers.
Point—G. Lavell, manager.
Cover—F. Wilson.
Centre—R. Clarke.
Right—W. Jackson.
Left—H. Wilson.
Rover—O. Lynn, captain.

A. Basset played right wing, and W. Kinsella played cover at some of the games.

It is planned to have the championship trophy of the Edmonton intercollegiate Hockey league presented to the S. C. I. at a banquet tendered to the winning team.

The officers of the S. C. I. Hockey club are planning a match for the Provincial Intercollegiate championship with the Calgary Intercollegiate institute, the winners of the Calgary Intercollegiate Hockey League.

SUGGEST BANQUET ON THE SOUTH SIDE

Many Citizen Are of Opinion That Celebration on March 1st Should Take Place on South Side, Later on On Month.

On March 1st the new city council assume office. They have been elected by the votes of a new Edmonton, the birth of which it is proposed to celebrate with a banquet in honor of the amalgamation of the twin cities of Edmonton and Strathcona. Strathcona is no more and both sides are now all one city of Edmonton.

Many South side citizens are of the opinion that no more fitting way of celebrating cementing the amalgamation at the start could be devised than by having the new city council and the prominent citizens of all of what is now Edmonton meet and begin to feel at home in what is now Edmonton, but was formerly Strathcona.

Edmonton now has a University, a Collegiate Institute, a Metropolitan church, and a larger and finer Alberta College. These buildings she did not have before. Almost any of these large buildings would be suitable places in which to hold the banquet.

This gathering could also pass a resolution of thanks to Lord Strathcona for his generous donation to the new hospital soon to be built in the University grounds on the "South Side of Edmonton."

NOTES FROM THE UNIVERSITY.

The cabinet of the University Y. M. C. A. held a meeting on Tuesday afternoon to make final arrangements for the Grenfell lecture. The budget for the association year was also presented and passed. The Y. M. C. A. canvass for funds is almost completed and it is expected that a report will be ready in the near future.

The weekly Glee club practice, under the direction of Mr. Barford, was held yesterday afternoon. The Varsity Glee club is planning to hold a concert some time in April, and practices with this end in view are soon to be commenced.

The Freshman debate held on Tuesday evening upon the resolution that Alberta should control her own natural resources resulted in a win for the negative. The next debate of the club takes place on Wednesday night.

The committee appointed to undertake the compilation of a University Song Book has written to the leading American and British universities requesting that they send the names of the ten college songs which they consider the best. It is the intention of the committee to embody in the song book some of the songs of other universities, as well as some which will be written exclusively for the Alberta book. Mr. W. F. Gillespie is the convener of the committee, Miss Helen Montgomery and Mr. A. L. Caldwell being the other two members.

The first of the games in the Brackman-Ker series takes place on Friday night at the South side skating rink, between Varsity and the Maritimes.

ASK Y. M. C. A. TO TAKE OVER WORK.

At the Young Men's club on Tuesday evening the executive committee decided to ask the Edmonton Y. M. C. A. to take over the present work and organize a branch Y. M. C. A. on the South side. It will rest with the Edmonton board what the future policy will be in the matter. It is very probable that a building will be secured in the near future.

SOUTH SIDE POLICE COURT.

A. M. Terrabin was fined $5 and $4.25 costs for depositing rubbish at his back door, and also ordered to pay $5.10 of costs in a previous case where sentence was suspended. These amounts were ordered paid forthwith or a distress warrant would be issued.

SCHOOL BOARD IN PRIVATE SESSION

(Continued from Page 1)

was mentioned in the meeting of the school management committee by S. A. G. Barnes, chairman of the committee, and a discussion took place as to whether the committee could consider it without the matter having been referred to them by a meeting of the board. W. Ramsey considered that if it was intended to make much change the matter should be considered by the whole board. So long as not much change was made, he thought the committee might make regulations touching the matter of the superintendency. "We are all acquainted with the conditions which we find ourselves up against," said S. A. G. Barnes, and we want to try, if we can, to get some satisfactory working basis. The school management committee is vitally interested. We want to draw the board's attention to what we have to contend against, and it is within our prerogative to make any recommendation that we like."

Dr. Park, reading from the rules, said: "No matter shall be entertained or considered by the board until it has been referred to the committee having proper cognizance of the same, and until such committee has reported thereon, unless by a majority vote of the members present."

The Two Superintendents.

Mr. Barnes said all the contracts for both sides of the river had been handed to the amalgamation board. They had Mr. McKee making his recommendations concerning the other side, and Mr. McCaig making his recommendations as well. The board must adapt themselves to the new conditions and make new arrangements.

Eventually the committee, some of the members of which showed some hesitation in approaching the matter, decided not to discuss the matter, but to leave it for the special meeting of the board. The same reluctance to deal with a knotty question was shown when the board had disposed of certain routine business and came to the subject for which the special meeting had been called.

A motion that the board resolve itself into committee of the whole emanated from J. J. McKenzie, and was supported by W. H. Clarke, S. A. Gordon Barnes thought that would mean that the school management committee would be prevented from discussing the matter in detail. The motion was: "That the board resolve itself into committee of the whole for the discussion of the whole matter of the superintendency." It having been agreed to, W. Ramsey was appointed chairman.

In Camera.

"Shall we exclude the press?" was the next nut the board had to crack. W. H. Clarke wished the proceedings to be kept dark, and said that it was for the reason that they might discuss the subject in detail that they had gone into committee. If they made the proceedings public their object would be defeated. He said he did not think the public was interested in the discussion but only in their actions.

J. J. McKenzie was somewhat less active in endeavoring to exclude the press. He thought the public seemed very much interested in the matter.

Mr. Clark retorted that the public might be interested in the discussions of the board, but he did not think that they were interested in the discussions of the committee, and he considered that it would be impossible at times to carry on the business of an executive body with the press represented.

Wanted Press Present.

S. A. G. Barnes thought that this was a question that could be well discussed before the recognized representatives of the public.

Mr. Clark asked for the ruling of the chairman on the subject.

The chairman replied that his idea of the use of committees was that they could discuss matters freely and say what they wished. Often there were things said in committees which it was not desirous to publish. He ruled that the reporters be excluded.

Dr. Park took a stand in the interests of openness. He said he was in favor of having the press present and made a motion that they be allowed to remain.

Chairman's Casting Vote.

Mr. Clark said he had nothing against the press, but he thought that "as a matter of principle," they were freer to discuss matters in an "off-hand way" when the press were not pre-

The motion of Dr. Park was then put to the vote and there voted for it Drs. Park and Crang and S. A. G. Barnes; against the motion only W. H. Clarke and the chairman voted, but the chairman declared the motion lost. Afterwards the chairman asked J. J. McKenzie which way he voted and he said he was against the press remaining in the room. The chairman exercised his right to a casting vote and gave it against Dr. Park's motion.

Guarding Against Timber Fires.

Prince Albert, Sask., Feb. 28.—After attending the annual conservation convention at Ottawa and forming a part of a deputation which waited on Hon. Robert Rogers, minister of the interior, to ask for better fire guarding in this district, A. L. Mattes, manager for the P. A. Lumber Co., has returned to the city.

"We submitted a plan to Mr. Rogers," said Mr. Mattes, "and we have every confidence that it will be adopted. If it is adopted, this district will have its timber better guarded against fire than has ever been the case before."

Calgary, Feb. 27—Actual work commenced today on the new C.P.R. shops, a large gang laying the 12 miles of spur track necessary for the work. An immense amount of material to be used in the work is already enroute to Calgary.

THE DOCTOR HABIT

And How She Overcame It.

When well selected food has helped the honest physician place his patient in sturdy health and free from the "doctor habit" it is a source of satisfaction to all parties. A Chicago woman says:

"We have not had a doctor in the house during all the 5 years that we have been using Grape-Nuts food. Before we began, however, we had "the doctor habit" and scarcely a week went by without a call on our physician.

"When our youngest boy arrived, 5 years ago, I was very much run down and nervous, suffering from indigestion and almost continuous headaches. I was not able to attend to my ordinary domestic duties and was so nervous that I could scarcely control myself. Under advice I took Grape-Nuts.

"I am now and have been ever since we began to use Grape-Nuts food, able to do all my own work. The dyspepsia, headaches, nervousness and rheumatism which used to drive me fairly wild, have entirely disappeared.

"My husband finds that in the night work in which he is engaged, Grape-Nuts food supplies him the most wholesome, strengthening and satisfying lunch he ever took with him." Name given by Canadian Postum Co., Windsor, Ont.

The reception at Government House Tuesday night presented a rare scene of brightness and animation. The Lieutenant Governor and Mrs. Bulyea received in the reception-room, the mistress of Government House wearing an elaborate French creation of emerald green charmeuse with graceful tunic of spangled net in the crystal and emerald tones, the overdress bordered with a wide band of cut-steel beads, seed pearls and gold. A string of pearls and a butterfly ornament inlaid with the same gems in her soft coiffure was very smart. A diamond necklace was worn. The floral decorations were most artistic in their arrangement and unique in their prettiness. A bower of pale rose tulips interspersed with ferns banked the base of the mirror in the reception room, while tunlips of a deeper hue and daffodils were deftly placed here and there about the room. Silver and violet was the color scheme in the tea room. In the centre of the table a profusion of violets and white hyacinths nestled in a white wicker basket, while silver shaded lights completed a very charming effect. Turner's orchestra played delightfully throughout the evening. The following is the list of the invited guests:

Mrs. Saunders' handsome home on Sixth street was the rendezvous of a steady stream of callers Tuesday afternoon, when this popular hostess received with her bright young daughters for the first time since her return from abroad.

Mrs. Saunders wore a French creation of rich black net embroidered in tiny silk roses mounted on rose satin, with gold garnitures on the bodice and an exquisite cream lace yoke. Miss Saunders wore a cameleon frock, mauve tints predominating, the bodice draped in soft lace. Miss Beatrice's frock was green and white striped silk, with a dainty lace fichu. Fragrant pink tulips adorned the lovely rose drawingroom, while daffodils graced the tea room. The callers lingered over the tea cups, Mrs. Saunders chatting interestingly about her travels.

Health and Beauty Helps

By Mrs. Mae Martyn

A.A.: I know just how you feel, but unless you discard powder and use a plain spurmax lotion, you cannot expect to overcome the oily, "muddy" condition of the skin. Get four ounces spurmax and dissolve in one-half pint hot water, then add two teaspoonfuls glycerine. This makes an ideal lotion and will clear the skin of pimples, blackheads and other impurities. The spurmax lotion is invisible when on and does not rub or blow off. Using it gives the complexion a velvety smoothness and exquisite tint.

Nellie: You can avoid the pain and expense attending the use of the electric needle, if you get an original ounce-package of delatone, and with a little of the powder mix enough water to form a paste. Apply to hairy surface and in two or three minutes scrape off and the hairs come with it. Then wash the skin and you will find it smooth and white. You will have to pay a dollar an ounce for delatone, but this is trifling as it never fails.

A. B.: The shampoo you mention contains "free" alkali, and it is this no doubt that causes your hair to grow coarse and brittle and fall out. A cleansing and very beneficial shampoo can be made by dissolving a teaspoonful of canthrox in a cup of hot water. This lathers freely and loosens every particle of dust and dandruff. Rinsing leaves the scalp immaculately clean and the hair dries quickly and evenly, while it takes on a lustre and softness truly charming.

Freda: From what you say, your condition is serious, and I would suggest taking a blood-cleanser. You will find that plain kardene, found in any drug store, is splendid for ridding the system of impurities and rebuilding waste tissue. This acts gently and greatly stimulates every organ in the body. You can make your own tonic by dissolving one-half cupful sugar in a half-pint alcohol, then adding one ounce kardene and hot water to make a quart. Take a tablespoonful three times a day, and you will soon be well and strong and be able to enjoy a good night's rest.

Jessie: I cannot recommend an eye-salve because this does not reach the seat of trouble. What you require for sore eyes and granulated lids is an eye-tonic, and at little cost you can prepare your own. Get from the druggist one ounce crystos and dissolve in a pint cold water, then put two or three drops in the eyes every day. This tonic is very strengthening to weak, tired muscles, and its continued use overcomes burning and itching and gives to dull, expressionless eyes a remarkable sparkle and brilliancy.

Clara: You certainly have cause to worry about your hair, and unless the brittleness is overcome and the dandruff removed from the scalp, you will have very little hair in a short while. I am sure you will obtain excellent results from quinzoin hair-tonic, the formula of which is here given: Mix together one-half pint each of alcohol and water and into this pour one ounce quinzoin. Use frequently and massage well into the scalp. Do this for a time and you will not be bothered with an unhealthy scalp or dull, lifeless hair. The persistent use of this quinzoin hair-tonic will give you a magnificent head of glossy hair.

Mrs. G. M.: It is an easy matter to reduce your weight to where you want it and regain your former figure, if you will use this simple treatment: Into a pint-and-a-half hot water dissolve four ounces parnotis, and when it cools take one tablespoonful before each meal. This gradually takes off weight without injury or inconvenience and does not leave the skin wrinkled or flabby.

Mrs. E.: The cold winds are very trying on any complexion. However, if you make up and use this greaseless cream jelly your skin will soon become soft, clear and velvety and wrinkles and other complexion troubles will be a thing of the past: Into a half-pint cold water stir two teaspoonfuls glycerine and one ounce almozoin. Let remain several hours before using. Apply freely after cleansing and drying the skin, massaging gently until it disappears. A few such treatments will banish pimples, blackheads and other impurities and give a pink and white embellishment to an old or faded complexion.

Mrs. Turnbull entertained informally at the tea hour on Tuesday for Miss Sutherland, of Namao, about twenty being present. Daffodils in little brass baskets brightened the table. Mrs. Hislop pouerd tea in the drawing-room, Mrs. Harrison cutting the ices.

SHOT HIS SISTER.

Winnipeg Youth's Dastardly Act When Scolded for Loafing.

Winnipeg, Feb. 28.—Oscar Sigurdson, aged 17, shot his sister, Mrs. William Pettigrew, twice in the back on Tuesday afternoon with a 38 calibre revolver and was arrested an hour later. His sister is now in the General Hospital, but not in danger of death. The young fellow was working last in a tailor shop as presser, but lost the job and for some time had been loafing, for which his sister scolded him severely. Today she went down town, and on her return found the lad just getting up and renewed her complaints, when he drew the weapon and fired two shots as she turned away from him. He confessed to the crime when arrested.

Winnipeg, Feb. 27—Two years in the penitentiary was the sentence handed out by Judge Dawson in the case of Charles Verral, who was found guilty of receiving stolen money, knowing the same to be stolen, from the Canadian Express Company from George Powers on January 11 last.

ENTERTAINMENTS

AT THE EMPIRE LAST NIGHT.

The Wrong Mr. Wright was presented last night by Geo. H. Summers at the Empire, and was a laugh provoking performance from start to finish. The comedian proved that he was as popular as ever in Edmonton by the large house that was on hand last night.

When George H. Broadhurst wrote the farce he was in his cleverest mood and produced a play which few have excelled in with provoking qualities. The central character, played by Mr. Summers, was one that keeps the audience laughing from the time he enters in the first act till the end of the last act. Belle Stevenson was at her best, as was the rest of the cast. It will be repeated tonight.

Sores from Elbow to Fingers

Zam-Buk Worked a Miracle of Healing

Reverend Gentleman Fully Corroborates.

Miss Kate L. Dolliver, of Caledonia, Queens Co., N.S., says: "I must add my testimony to the value of Zam-Buk. Ulcers and sores broke out on my arm, and although I tried to heal them by using various preparations, nothing seemed to do me any good. The sores spread until from fingers to elbow was one mass of ulceration.

"I had five different doctors, and faithfully carried out their instructions. I drank pint after pint of blood medicines, tried salve after salve, and lotion after lotion; but it was of no avail.

"My father then took me thirty miles to see a well known doctor. He photographed the arm and hand. This photograph was sent to a New York hospital to the specialist; but they sent word they could do nothing further for me, and I was in despair.

"One day a friend asked me if I had tried Zam-Buk. I said I had not, but I got a box right away. That first box did me more good than all the medicine I had tried up to that time, so I continued the treatment. Every box healed the sores more and more until, to make a long story short, Zam-Buk healed all the sores completely. Everybody in this place knows of my case and that it is Zam-Buk alone which cured me."

Minister Corroborates—The Rev. W. B. M. Parker, of Caledonia, Miss Dolliver's minister, writes: "This is to certify that the testimonial of Miss Dolliver is correct as far as my knowledge goes. I have known her for a year and a half, and her cure effected by Zam-Buk is remarkable."

Wherever there is ulceration, blood-poison, sores, cold-cracks, abscesses, cuts, burns, bruises, or any skin injury or disease, there Zam-Buk should be applied. It is also a sure cure for piles. All druggists and stores sell at 50c per box, or post free from Zam-Buk Co., Toronto, for price. Refuse cheap and harmful imitations and substitutes.

How to Make Better Cough Syrup than You Can Buy

A Family Supply, Saving $2 and Fully Guaranteed.

Sixteen ounces of cough syrup — as much as you could buy for $2.50—can easily be made at home. You will find nothing that takes hold of an obstinate cough more quickly, usually ending it inside of 24 hours. Excellent, too, for croup, whooping cough, sore lungs, asthma, hoarseness and other throat troubles.

Mix two cups of granulated sugar with one cup of warm water, and stir for two minutes. Put 2½ ounces of Pinex (fifty cents' worth) in a 16-ounce bottle, then add the Sugar Syrup. It keeps perfectly. Take a teaspoonful every one, two or three hours.

This is just laxative enough to help cure a cough. Also stimulates the appetite, which is usually upset by a cough. The taste is pleasant.

The effect of pine and sugar syrup on the inflamed membranes is well known. Pinex is the most valuable concentrated compound of Norway white pine extract, rich in guaiacol and all the natural healing pine elements. Other preparations will not work in this formula.

The Pinex and Sugar Syrup recipe is now used by thousands of housewives throughout the United States and Canada. The plan has been imitated, but the old successful formula has never been equaled.

A guaranty of absolute satisfaction or money promptly refunded, goes with this recipe. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Toronto, Ont.

THURSDAY, FEBRUARY 29, 1912

All the towns in Alberta are now under the single tax system for the raising of municipal revenue.

—

After all the fuss, Manitoba's boundaries are to be what Sir Wilfrid Laurier proposed and what Mr. Borden saw fit to go into hysterics over.

—

The retiring council did the right thing in making a recommendation to raise the salary of the mayor to $5,000 per year. The charter may have intended the position of the mayor to be one of dignity rather than of toil, but for better or worse the practice has become that the holder of the office devotes himself to the city's business as exclusively as one of the other commissioners. That being so, the salary should be in proportion.

—

The new grain bill as introduced in Parliament would permit the mixing of grain after its grades have been fixed by agents of the Government. If this were allowed a British miller who bought a ship-load of No. 1 Manitoba hard by cable would get a ship-load of Manitoba No. 1 hard mixed with something that he did not want, did not order, and probably would object to paying for. The outcome of the system must be to advertise the Government grading as not to be relied upon and to thus destroy confidence in the good faith of the Government inspection system, as well as in the quality of Canadian wheat.

—

The dilly-dallying over the Hudson Bay railway has at last given way to something that looks like business. Preparations are being made at Le Pas for resuming work when spring opens. There was no reason why work should have been suspended other than the apparent desire of the Ministers to block the project. Three months have been lost during which much could have been done in taking in supplies and clearing the right-of-way, and the amount of real construction work that can be done next summer is reduced proportionately. We may be thankful, however, that something is to be done. It has been made clear enough that nothing would have been done if the Ministers had not feared the consequences.

—

The Liberal Association have decided to provide themselves with permanent headquarters. The site chosen is a splendid one, located only a block from the corner of Jasper and McDougall avenues and easily reached by car from every part of the city. Here it is proposed to erect a building which will provide a permanent rallying place for the Liberal forces and will also meet the existing need of a large hall in which public meetings may be held. The enterprise is an ambitious one, and will involve the investment of a large amount of money. It is being taken up with confidence and enthusiasm and will undoubtedly be carried to completion before the end of the summer. The building will be a fine testimonial to the zeal of Edmonton Liberals on behalf of their political faith.

AID TO APPLY TO NEW LINE.

Ottawa, Ont., Feb. 28.—Hon. W. T. White has given notice of the following resolution:

That it is expedient to provide that the aid and assistance under the Canadian Northern Alberta act 1910, which the governor in council was authorized to give to the Canadian Northern Alberta company, in respect of construction of 150 miles of railway therein described, may, notwithstanding anything in the said act, be applied to the first fifteen miles of the company's railway at present constructed or located from St. Albert in a generally western direction towards the Yellowhead Pass.

"CALAMITY HOWLERS."

The Saskatoon Capital has made a discovery. One firm of implement makers is to "establish" in Saskatoon—which means that they are going to rent or build a warehouse there for displaying and housing their goods. Another firm have purchased trackage upon which to extend their "plant"—meaning, of course, their warehouse accommodation. A third firm are to build a new warehouse. One of these firms has bought a factory in Toronto—an existing industry thus going out of business to make room for another—will remodel it, and use it for manufacturing purposes. All this new and vast "development is to "be attributed directly to the de- "feat of reciprocity," says the Capital, whereupon it calls on "calamity-howlers" to stand and marvel. If such there be in Saskatoon or elsewhere, they and the western public generally might do worse than consider somewhat the meaning and results of the economic "developement" outlined by the Capital.

If there are in the vicinity of Saskatoon persons to whom the above uncomplimentary title is intended to apply, it must be supposed to be the farmers whose wheat is lying on the prairie covered by snow, who have been obliged to deny their families intended comforts and to stand off their creditors in consequence of this untoward circumstance, and whose exemplary patience has lately been giving way to expressions of very pardonable discontent. Applying the proffered remedy to the sore spot then, how much will the position of these farmers be bettered because one firm is to build an implement warehouse in Saskatoon, because another is to enlarge its present warehouse, because a third is to engage warehouse quarters, or because one of these firms has bought one industry out and will establish another in the city of Toronto? Will the warehouse employees establish a large pay roll in Saskatoon and create a "home market" for the wheat which the railways can't or won't haul to markets abroad? Will the substitution of one Toronto industry for another make it more possible to get the grain over the railways, or enable the Saskatoon farmer to cash the product of his year's toil? All these enterprises are good enough in their way and so far as they go, but what will any of them or all of them do to meet the very specific grievance of which the farmers of Saskatoon are complaining and which the Capital seeks to waive aside by sneering at the farmers as "howlers" of "calamity?"

There is another moral in this recital of the Capital, not indeed to be marvelled at for it is too common to excite wonderment but none the less worthy of note. The factory, it will be observed goes to Toronto—only the warehouse comes to Saskatoon. What benefit the Canadian farmer is to get from this concern will not go to the farmers on the prairies but to the farmers in the vicinity of Toronto. If the new firm employs in its factory more hands than the old one the "home market" so created will be a "home market" for the farmers of York county, not for those of the Saskatoon district. Incidentally, the growth of urban population and wealth to which the activities of the company may give rise will inure to the advantage of Toronto, not Saskatoon. This arrangement of things illustrates aptly the beneficent fashion in which the tariff operates in the distribution of Canadian industries. The manufacturer builds his factory in Toronto or Brantford or Galt, knowing that he can add the freight charges to the price of his goods and still sell them in the western provinces for less money than his United States competitor. In the western city he locates a warehouse only, where the goods made in the eastern factory are stored until sold. This is one of the features of the situation which helps to explain why it is that in all this western land there is not a single manufacturing city; why one small Ontario town has manufacturing concerns than the great city of Winnipeg, and more than all western cities combined outside Winnipeg. Had reciprocity carried, the duty on farm implements woud have been reduced to some extent; to that extent the Canadian and the United States manufacturer would have been brought into closer competition in the western market, and thus put under compulsion to build their factories where they look for their business. Reciprocity having been beaten, the manufacturers of the east stay east, and the manufacturers of the south stay south. Only their warehouses are built in the western cities. The western farmer is denied even the trifling compensation he might get if he were allowed to sell potatoes to their employees. And when he protests against being taxed to perpetuate this condition of things he is dubbed a "calamity howler."

ANNUAL MEETING OF D.R.A. HELD AT OTTAWA

Dominion Rifle Association in Session Under Chairmanship of Col. Sam Hughes, Who Takes Occasion to Defend Ross Rifle and Condemn N. R. A.

Ottawa, Feb. 27—The annual meeting of the Dominion of Canada Rifle association was held this morning in the railway commission room of the House, with the minister of militia Colonel Sam Hughes, in the chair. Sir Frederick Borden, ex-minister of militia, was in attendance. His Royal Highness the Governor General was to have addressed the meeting but owing to a slight indisposition he was unable to attend.

The meeting did not waste much time in getting down to business. Colonel the Hon. Hughes opened with a very brief address in which he complimented the association on its splendid showing. He read a resolution of welcome to His Royal Highness, who some time ago had graciously consented to become the patron of the association. This resolution will be forwarded to the Governor General.

Lieut. Col. S. M. Rogers, of Ottawa, moved a vote of thanks, seconded by Lieut. Col. J. W. DeC. O'Grady, 90th regiment, to last year's parliament for the liberal grant which was given the association and also to the former minister of militia, Sir Frederick Borden, and the former postmaster-general, Hon. Rodolphe Lemieux, for the many services they had rendered the association.

Lieut. Col. Rogers moved, seconded by Col. Bertram, that a vote of thanks be tendered Mrs. E. C. Whitney for the grant of $1,000 for cadet corps. The resolution was carried unanimously.

It was moved by Major Munro, 90th regiment, seconded by Lieut. Colonel J. W. DeC. O'Grady, 90th regiment, that as the membership from Manitoba was largely increased the constitution be amended so as to give the following representation in the council of members of the association: Ontario 14, Quebec 10, Nova Scotia, Manitoba and New Brunswick 6.

Colonel MacDonald moved that Alberta and Saskatchewan be also represented on the council with four representatives each. Both amendments were carried. British Columbia also has four members.

The election of officers was as follows:—

The patrons and vice-patrons were re-elected from last year with the addition of Sir Frederick Borden as vice-patron.

Hon. president—Colonel Hon. Sam Hughes.

President—Lieut. Col. J. H. Burland, R.O., Montreal.

Vice-presidents—Ontario, Col. A. C. McDonald, 11th Infantry brigade, Toronto; Quebec, Lieut. Col. E. W. Watson, O. C. 18th Infantry brigade, Montreal; Nova Scotia, Hon. Senator L. Power, Halifax; New Brunswick, Col. John Tilton, Ottawa; Manitoba, Lieut. Col. S. B. Steele, C.B., M.Y.O., Winnipeg; British Columbia, Lieut. Col. Stewart, Vancouver; Prince Edward Island, Lieut. Col. H. McL. Davidson, 4th P.E.I.; Saskatchewan, Lt. Col. R. J. Gwynne, 16th L.H.; Yukon Territory, Dr. Thompson, M.P.; Alberta, Lt. Col. Walker, Calgary.

Chairman of council—Lieut. Col. A. P. Sherwood, Ottawa.

The representatives of Ontario council were all re-elected.

At the conclusion of the election of officers a hearty vote of congratulations was tendered Colonel the Hon Sam Hughes on his elevation to the office of minister of militia, moved by Col. McDonald, seconded by Col. Labelle, of Montreal.

The newly-elected president took the chair and called on General McKenzie for a few words.

General McKenzie spoke briefly on the service competitions and regretted the fact that while at Rockliffe there were eight competitions, the provinces had shown a great laxity in the matter. He considered that service competitions should be greatly encouraged. He pointed out, however, that the present arrangements were not satisfactory. He pointed to the poor showing in the western provinces in rifle competitions.

Colonel O'Grady took exception to the statements regarding Manitoba and the western provinces pointing out that in Manitoba weather conditions last year greatly hindered the competitions. It was impossible to get good targets and half of the men could not see the target owing to the position of the sun.

Col. Hughes spoke of the apparent intention of the Bisley authorities to exclude the Ross rifle from the Bisley shoot. He put it up to the association to take steps to harmonize the D. R. A. and N. R. A. He stated that the N. R. A. had done nothing to create harmony with the Canadian association. He also stated that the conditions that had been made were certain to make it impossible to use the Ross rifle. He considered that this was due to the admitted superiority of the Ross rifle over the British arm.

The report of the treasurer, Major D. E. Sutherland, of Ottawa, showed a very encouraging balance on hand of $1,975.17. The amount of the receipts was $32,8053.2, while the expenditures amounted to $31,720.10. The chief items in the expenditure were the expenses of the Bisley team, which amounted to $5,798.69 and the prize meeting, $3,911.90.

ILLUMINATED STREET CAR TO RUN ON FRIDAY

Street Railway Department's Novel Way of Celebrating the Twin Cities Amalgamation — Effective Display in Colored Lights.

The street railway department has hit upon a novel way of celebrating the amalgamation of the two cities, and incidentally boosting Greater Edmonton. On Friday and Saturday nights an illuminated street car will be run over the whole of the car system and possibly on Monday night also. The car will start from the city car barns about seven o'clock and will run until 10.30.

An effective scheme of decoration will be carried out in colored lights. Along the top of the car there will be two large signs, one on either side, worked out in electric lights reading "Boost Greater Edmonton." The dashes at either end will be covered with a solid mass of lights with the words "Edmonton" and "Strathcona" picked out in red. In the centre of the side panels will be displayed the coats of arms and mottoes of the two municipalities, the outlines of which will be worked in lights. The framework of each window will be covered with lights and the inside spaces will be let for advertisements.

NEW ZEALAND GOVERNMENT

"No Confidence" Vote is Defeated by Labour Members.

Wellington, N.Z., Feb. 28—The "No confidence" motion resulted in a tie and the speaker gave the casting vote for the government. Three laborites voted for the government, two of them contrary to their election pledges. Massey's charge that a labor member was "squared" was withdrawn and it is expected that Sir Joseph Ward will be induced to withdraw his intended resignation.

C.N.R. TO CONCENTRATE ON ALBERTA THIS YEAR

More Track to be Laid in Alberta Than in Any Other Province in Dominion.

GEN. MGR. MACLEOD IS BACK FROM END OF G.T.P.

No Comment to Make on Fight Between Two Railways at Mile 31 B.C.

"The C.N.R. will lay more track in Alberta this year than in any other province."

This was the statement of M. H. MacLeod, general manager of the Canadian Northern Railway, to a Bulletin representative who sought an interview at the C.N.R. depot yesterday. Mr. Macleod had just returned from the Yellow Head Pass, where he had been in company with A. Wilcox, the general superintendent. The work of the company on the line west of Edmonton is progressing satisfactorily, and considerabe grading has been done as far as mile 170 west of Emonton. The work has necessarily been rather tedious so far, but a start is being made with the laying of the steel for the bridge over the Pembina river, and as soon as the bridge is thrown over the grading on the stretch between the Pembina and the Macleod rivers will be completed, the parts already graded being connected up.

"It is a little early yet," said Mr. MacLeod, "to estimate the amount of work which will be got through on this line during the year, but Sir Donald Mann stated the other day that 350 miles of the line in British Columbia will be graded this year, and from this end we expect to have the line graded to the summit. A large force of men is at work on the British Columbia side. So much depends on the weather, however, that it is difficult to give exact estimates."

Will Concentrate on Alberta.

Regarding the genearl construction work of the company in the province, Mr. MacLeod said the company intended to concentrate on Alberta, and push their extensions as much as possible this year. As soon as the weather opened up, men would be got to work on the Peace River line, the Brazeau line, the Calgary-Vegreville line, and on the Munson line. The majority of the construction work on these lines would be done under the provincial government's guarantee.

The Athabasca Landing line is now complete, except the last ten miles. A report for which the company was not responsibie was circulated some weeks ago stating that the last mile of steel had been laid to Athabasca Landing. That was not correct. Several bridges, not very large ones, will require to be built before the steel can be got to the Landing, but the line should be completed very shortly. The present end of the steel, said Mr. MacLeod, connects with a good wagon road, which can be safely travelled by automobiles.

Freight Yards to Be Extended.

Speaking of the proposed extension of the freight yards at Edmonton, Mr. MacLeod said the growing volume of traffic required that the yards should be extended in the near future. He would not state whether or not the company intended using property north-east of the city, reported to have been purchased by the company for the purpose of freight yards and shops. He said there was nothing definite to announce in regard to negotiations for a union depot here.

Race to the Coast.

Mr. MacLeod was not at liberty to discuss the situation at Mile 31 B.C., where the work on the G.T.P. has been stopped by an injunction obtained against that company by the C.N.R. "Some difficulty had arisen," he said, "which made the injunction necessary in the interests of the C.N.R." Neither did he wish to make comparisons between the work done by the two companies on their lines between Edmonton and the Coast. "The G.T.P.," he said, "are getting on very well with their line, and so are we. I can't predict which will be the first to run a train through to the Coast."

Mr. MacLeod left Edmonton with Mr. Wilcox and their staff by special train this afternoon. After inspecting work on the Brazeau branch he will go on to Winnipeg.

KINGSTON, JAMAICA, IS UNDER MOB RULE.

Kingston, Ja., Feb. 28.—The city is under mob rule. Sir Sydney Oliver, governor, was attacked and hit with a brick. The riot act was read and the troops fired on the mob, killing two. American tourists were pelted with stones and bricks. Mrs. Fritz Duquesne, New York, was probably fatally hurt. The street car company in raising the rates, caused the discontent.

PRESS OF ENGLAND HAS NO USE FOR ROOSEVELT

The Times and the News Declare He is Not Playing Fair With Taft, and Will Not Get Republican Nomination for President.

London, Feb. 28—The London Times said editorially this morning that a great amount of sympathy with President Taft has been aroused by Mr. Roosevelt's announcement. It is felt that he has been rather badly treated. He was practically compelled to accept his present position and in doing so was assured of the support of the man who is now trying to supplant him.

Mr. Roosevelt was not in a position to seek re-election four years ago, but he presented Mr. Taft to the country as one whose policy was identical with his own and as one who would carry it out by methods less aggressive and sensational than those of which the people were getting a little weary.

The Daily News says: "Mr. Roosevelt commenced his candidature for nomination by explaining that when in 1904 he said, "Under no circumstances will I accept another nomination," he meant another "consecutive" nomination. Nobody read that into it until this moment, and this subtle qualification comes strangely from the apostle of virile directness in the very hour of directing an assault upon the legal subtleness of judges. However, the main thing is that Roosevelt is after the Republican nomination. He is not likely to get it. The dropping of his self-denying mantle will not help Roosevelt, nor will the fact that he is running against his own former protege.

"All the advantage that Roosevelt can boast of is a genius for advertising, and there are lots of people who really think that advertisement is what they want."

Increases for Sub-Postmasters.

Ottawa, Ont., Feb. 28.—Hon. L. P. Pelletier, postmaster general, has given notice of the following resolution: "That it is expedient to amend the civil service act by providing that assistant postmasters in post offices in which the postage collections exceed one million dollars may be paid a minimum salary of $2,800, with annual increases of one hundred dollars up to a maximum salary of $3,500; and that after the Governor in Council so determines such provision may be made applicable to assistant postmasters appointed prior to the first day of April, 1912."

Chinese Riots At Java Quelled

Hague, Feb. 27—An official despatch concerning the Chinese riots in Java says that 800 Chinese have been arrested at Surabaya the capital of the residency of the same name on the north coast. The despatch adds the Chinese made no resistance, that the situation has queted and that business is being resumed under practically nominal conditions. The Nieuwe courant comenting on the threats of the Chinese cabinet to cancel the treaty relations with Holland or to make other reprisals says that it is to be presumed that these threats are based on information.

HEAVIEST SNOWFALL OF THE YEAR IN MONTREAL

Eighteen Inches on the Level — Several Buildings Collapse From Weight of Snow on Roofs—Will Cost City $50,000 to Remove the Snow.

Montreal, Que., Feb. 28.—By midnight tonight eighteen inches of snow had fallen since seven o'clock yesterday morning, and, besides seriously delaying traffic, the storm was responsible for the collapse of several structures in the city, owing to the tremendous weight of snow on the roofs. Eighty feet of the wooden roof of the Forum Skating Rink collapsed this afternoon while seven men were busy trying to clear away the snow. The accident was preceded by an omnious creaking and splintering of the beams and the men had time to escape, while the forty people, skating inside also managed to stand from under it before the roof came odwn.

Recently the proprietors of the Forum were granted judgment for $6,000 against the Montreal Star for a series of articles opposing the erection of the structure and criticising it as architecturally unsound. The roof of one of the C.P.R. freight sheds also collapsed at noon today but fortunately all the men were away at lunch at the time. Several engines were injured and the total loss will be some $50,000.

The city streets have been kept fairly passable and the street car service, except in the outlying wards, has not been disorganized. The storm will cost the city nearly $50,000 for snow removal, and has given employment to hundreds of men, who up till this week had suffered from the unusual lack of work, resulting from the light snowfall of the early winter.

Ross Rifle Dispute.

London, Feb. 28.—Today's papers give prominence to the Ross rifle dispute. Lord Cheylesmore, in an interview, would not reveal anything further than was told to the Canadian Associated Press yesterday, excepting that the Canadian teams at Bisley had hitherto undoubtedly had the advantage over the home teams, owing to the sight they used.

Sir Charles Sill Bedfast.

London, Feb. 28—Sir Charles Tupper, who is still bedfast, takes the keenest interest in current events. He is extremely grateful for the hosts of Canadian enquiries regarding his condition.

ALLENDALE

Edmonton's Finest Residental Subdivision

Here is a sure proposition for the man who wants to make money quickly

The Vital Point

Do you realize what is happening?

Do you know that you are right in the same position today to make money in Edmonton that you would have been, had you been in **on the spot** when the city of Chicago, or any other gre[illegible] cities were started?

The advice of friends is sometimes good but don't always rely solely upon it, use your own common sense in selecting your property.

Many subdivisions are being offered in this progressive city of ours. Some are money makers. Others are not.

Now talking of Allendale

This is where you get the advantage of buying this property:

Allendale is located a few minutes walk from Whyte Ave., is situated upon Main St., the coming business center and is just far enough away from the smoke and dirt of the city to be ideal residential property.

Lots are large. Roads are being built. Houses are going up all around. You have now sewerage, phone, etc., and in the near future street cars. All these items added to the fact that the property is selling fast go to show that

Allendale is the place to buy

There is no doubt that money is to be made south of the river by someone, Amalgamation and the New High Level Bridge is advancing the value of South Side lots. Is this someone to be you? It may just as well be you as the next man. All you have to do is to come and see us about this Allendale, we do the rest.

Prices of Lots:

$225 to $975

Australia Has Good Chance.

London, Feb. 28.—England were put out for 214 runs in their second innings of the fifth test match, which is being played in Australia, and with 324 in the first innings they have a total of 538 runs. Australia started their second innings yesterday and at the close of play had three wickets down for 193. The Australians made 176 in their first attempt, so will have toget 170 to win. They have seven wickets to go down.

THE PACIFIC COAST TERMINUS AND SEAPORT OF

The Canadian Northern

RAILWAY SYSTEM

The PACIFIC PROPERTIES LIMITED has purchased large holdings in the Townsite of Port Mann from the Canadian Northern Railway. These properties will be offered to the public for the first time

SALE STARTING

MARCH 1st, 1912

PORT MANN has been before the public for the past two years and during that time the great interests back of it have been perfecting their plans for its future. Not only has a large portion of the railway been constructed between Port Mann and Edmonton but also the townsite itself has been cleared and laid out as a model city. Wharves have been built; a large hotel is under construction and other buildings have been started.

CANADIAN NORTHERN SHOPS A definite statement has been made by the Vice-President of the C.N.R. that the Coast terminal and repair shops will be located at Port Mann, and with the development of the mountain sections, will quickly enlarge until they rival the present shops at Winnipeg which employ nearly 3,000 hands and support a population of 15,000 people.

POPULATION 25,000 Within a short time Port Mann will have a population of 25,000 people, supported not only by the pay roll of the C.N.R. but by other large industries, some of which have already secured desirable sites. The future of this Western city can only be limited by the development of Western Canada. Back of it lies the resources of the entire country, and in front is the ocean highway of commerce to the Orient, also to Eastern America and the Continent of Europe via the Panama Canal.

THE HOLDINGS Of the Pacific Properties Limited offer you every facility for selecting the best that the townsite contains.

AROUND THE CITY

LOCALS

Mrs. M. L. Berthianme, her son and daughter, left yesterday for Vancouver where Mr. Berthianme is reported to be dangerously ill.

The Women's Bible Class of the First Baptist church gave a shower to one of their number, who will be leaving the city shortly. An enjoyable evening was spent by all.

James Martin, manager of the cloth and furnishing department of the Hudson's Bay Company, left last night for Scotland. Mr. Martin has gone over as buyer for his department.

The death of Mrs. Albertina Santert, 62 years of age, occurred on Tuesday morning at the family residence, 217 Wilson street. The funeral takes place on Thursday afternoon from Andrews' undertaking parlors.

BANQUET COMMITTEE MEETS

The committee appointed at Tuesday's night's meeting of the city council to arrange for a banquet in the nature of an amalgamation celebration met in Mayor Armstrong's office yesterday. Besides the mayor, other members of the committee are, Aldermen Lundy, and McInnis. After going over the matter quite thoroughly they found it would be impossible to complete arrangements so that the affair could be held Friday night. The committee was in session for nearly two hours, at the close of which Alderman Lundy said no definite date had been fixed for the banquet. Neither had a place been selected for holding it.

Alderman Lundy suggested Tuesday night, March 7, as about the earliest time for which all the details could be worked out.

SENTENCES IN SUPREME COURT

Mr. Justice Stuart, in the Supreme Court has passed sentence on three prisoners. L. S. Jones, the colored freighter, who was found guilty of stealing goods delivered him by the Hudson's Bay Company, was given 24 hours in gaol. The accused has already spent three months in Fort Saskatchewan, waiting trial, and Mr. Justice Stuart considered that the ends of justice would be met if the accused was retained in custody until 11 o'clock Thursday morning.

Percy Forbes Rimmer, who pleaded guilty to forgery, was sentenced to one year in Fort Saskatchewan. Rimmer was concerned in the issue of a fraudulent cheque for $170.50. Rimmer turned King's evidence against his companion, who, however, was discharged for lack of corroborative evidence.

Alfred Hoare, 27, charged with the theft of tools belonging to his employer and also with having forged a cheque for $7, was sentenced to one year in the Fort.

The charge against Herbert Fetterly of occasioning bodily harm was withdrawn by the Crown and the accused was acquitted.

HE WITHDREW THE CHARGE

After having Grace Toohill brought back from Calgary to answer to a charge of stealing a diamond ring, Joseph McGrath withdrew the complaint in the police court yesterday and the young woman was released from custody. The case promised some interesting developments had it come to trial. The diamond was valued at $500 and McGrath says it was stolen from him on February 24. He has never recovered the sparkler, and Miss Toohill disclaims any knowledge of its whereabouts. All the parties to the case came here from Montana.

The epidemic of drunkenness does not seem to have abated. There were twelve cases of intoxication on the docket today, and indications were that the list would be further augmented before night.

PROTECTION OF WORKMEN

Better protection to life and property may be afforded if more attention is paid to the new building bylaws, according to members of the Edmonton Bricklayers' union, who have taken the matter up with the city commissioners. The organization appointed a committee recently to investigate and make such suggestions to the municipal authorities as would tend to increase the efficiency of the bylaws.

The bricklayers directed the secretary of their union to write to the commissioners and the letter was read at the board meeting this morning. The union requests that the matter of sanitary conveniences for workmen be made a little stronger by having the work inspected under the supervision of the city building inspector, and the latter to report to the health department.

In the matter of fireproof construction of various types, whether steel, frame or reinforced concrete; the bricklayers suggest that the new bylaws embody some clause providing for the better protection of workmen employed on the construction.

In the construction of buildings of more than three storeys in height, the union would incorporate a provision requiring that there shall be at least two completed floors between the erection and the workmen below, and on any such building all fireproof floors shall be laid as the building progresses.

The union also urge that at least one member of the building inspector's staff should be a competent bricklayer or mason.

The letter was referred to the city Building Inspector McIvor, for report.

DEPOSITS OF MARL

A well informed correspondent states that extensive deposits of marl and clay exist in close proximity to the city about eight miles out on the Stony Plain Road. The exact extent and commercial value of the deposits have not yet been ascertained, owing to the fact that the material is situated on land belonging to several owners, who are farming the land on which these marl beds form part. It has, however, been found that the marl is deposited over an area of several acres, and has a depth in places of fourteen feet.

The land where the marl is, is of a swampy character, but there is a firm stratum beneath it which is believed to be a bluish clay, particularly suited to the manufacture of porcelain.

The chief value of the marl and clay, however, would be the manufacture of cement. The two materials are rarely found in close conjunction and their proximity in this case would mean that cement could be manufactured very commercially.

While exact information is wanting samples of the deposits have been examined and one report states that the marl contains a very large percentage of cement. A specimen is at present on the way to France where its properties will be tested. An engineer who has been over the ground states that he believes that the materials are to be obtained in sufficient quantities to keep a good sized cement plant going for fifty years.

COLIN FRASER IN FROM NORTH

Colin Fraser, the pioneer fur trader of Fort Chipewyan, and a well known figure to Edmonton old timers, is in the city today. He has brought down from the north a small portion of his winter's catch of furs, having about 250 marten and fifty silver fox pelts. He estimates that the value of the fur he has accumulated this winter will be about $15,000 dollars. He has six black fox pelts in the catch. He states that this year the fur catch has not be unusually good, for rabbits were very scarce in the Athabasca district. Fox are very plentiful but wild. The catch in the country about Fort Vermilion will be large, the rabbits being exceedingly numerous in that district. Last fall wild geese were very numerous about Fort Chipewyan, Mr. Fraser having obtained about seven hundred of them for winter meat.

The roads north of Lesser Slave Lake are in splendid condition now because of the large number of oil prospectors and homesteaders pouring into the Fort McMurray district.

Mr. Fraser once farmed that portion of this city lying between Queen's and Namayo Avenues and extending a mile back from the river. He sold this land for ten thousand dollars when Edmonton was in embryo. He still has holdings in the city worth many thousands of dollars.

He made a quick trip in from the half-way house last night by auto and today he is anxiously awaiting the arrival of Mr. Louis Brebant from the Landing. Mr. Brebant's auto having broken down on the way. Fred Fraser the well known long distance runner, accompanied his father and is also in the city.

SUSPEND WORK ON UNIVERSITY CAR LINE EXTENSION

Street Railway Superintendent Says Conditions Do Not Warrant the Expenditure.

COMMISSIONERS WILL HAVE AN AUTOMOBILE

C. C. Snowden Wants to Establish Oil Refinery on the McDonald Estate.

Work will be suspended for the present on the university extension car line on the south side. The city commissioners Tuesday adopted the suggestion of Supt. Knight, of the street railway department, who said that conditions right now do not warrant the heavy expense necessary to complete the extension,

The commissioners will have a new automobile for their use incident to covering the city from time to time in connection with municipal affairs. A tender was received from E. M. Vardon, who offered to sell a Cadillac car, model 1912, for $2,850. The car will be purchased.

A letter was received from C. C. Snowden, who conducts an oil refinery in Calgary, stating that he would establish a similar business in Edmonton if he could secure a site on the McDonald estate, owned by the city. He declared that no unpleasant odors came from his plant and under no circumstances would a nuisance be maintained. Referred to Commissioner Candy,

Medical Health Officer Whitelaw informed the commissioners that it would be necessary to secure office accommodatin on the south side in order to carry on the work of his department in that section of the city.

A report was received stating that 2,530 new strainers were required at the filter to replace the present strainers, which have been damaged by overheating.

Supt. Huffman sent in a written report to the effect that the hot well drainage pump at the power plant was not working satisfactorily, falling down on full load, as he expressed it.

The commissioners received a letter from a law firm representing Mrs. Milner, who threatens to sue the city for alleged damage to her property, on the flat, at the mouth of Rat creek, due, it is claimed, to a septic tank. The city offered to settle for a certain amount, but the letter stated that Mrs. Milner absolutely refused to entertain the proposition, adding that "as she has been offered $8,000 for the property, we expect that amount from the city." The communication was filed,

An application was received from a man who wanted to collect the accounts due the municipality for local improvement work last summer, but he will be informed that the position is already filled.

TRAMWAY MEN'S STRIKE.

Arbitration Court Declares Men May Wear Union Badges.

Melbourne, Feb. 28.—Justice Higgins, president of the Federal arbitration court, on Tuesday gave his award in the case of the Brisbane tramway strike. He declared that the anti-badge regulations of the Belbourne, Brisbane and Adelaide authorities to be invalid and has granted an injunction to prevent companies from prohibiting the wearing of trade union badges on the men's uniforms during official working hours. Unionists regard this as a victory of world-wide importance and as establishing the right of men to wear union badges throughout the Empire.

NEW COUNCIL TO DECIDE THE SALARY QUESTION

Retiring Council Make Recommendation to Incoming Board to Increase the Mayor's and City Solicitor's Stipends—New Council to Meet in Exhibition Offices.

Oratory flowed freely toward the close of council meeting Tuesday night and every member of the old board contributed something to this feature of the meeting. The retiring aldermen and those who were re-elected to serve another year or two exchanged a variety of complimentary references, both of a personal and official character, leaving everybody in prime good humor. The meeting adjourned shortly before midnight.

The question of raising the Mayor's salary from $3,000 to $5,000 a year was, it seems, left for the new council to decide, with a recommendation from the old council that an increase be granted, beginning January 1, 1912. It would not affect Mayor Armstrong so far as the present term is concerned.

The new council will also start in with a recommendation that the salary of City Solicitor Bown be raised from $3,000 to $5,000.

The first meeting of the new council will be held next Tuesday night. As there will be three more aldermen than in the old council, the commissioners will make provision for larger accommodations in the council chamber, at headquarters of the Exhibition Association, on Second street. Three additional desks and seats have been ordered and will be placed before the end of the week.

HOW CHINESE REPUBLIC DEALS WITH GRAFTERS

General Who Bought Obsolete Rifles Has Disappeared—Friends Told He Was Very Sick, but Believe Him Decapitated.

Shanghai, Feb. 28.—The impression prevails here that graft will not be tolerated by the Republican officials, following the strange disappearance of General Chen, who was made military commander of this city when the rebels gained control.

General Chen was commanded to buy arms for the troops at Wu Chang He purchased a large quantity of obsolete rifles, which were thrown into the river by order of Geneal Li Yuan Chang. General Chen got the guns for 17 taels each and sold them for 30 taels each. Soon afterwards he disappeared. His friends were told the General was "very sick." All efforts to locate him having failed, it is now believed he was decapitated.

A BITTER FIGHT OVER SALVAGE OF SUBMARINE

Admiralty Directs Navy to Undertake Salvage of Submarine Which Was Lost Off Isle of Wight—Salvage Company Putting up Fight.

London, Feb. 28—The British navy is now engaged in a battle with the salvage force which has been directing the operations to raise the submarine, A. S. 3, which was recently lost off the Isle of Wight. The trouble is caused by the bitter criticism of the admiralty's lack of salvage apparatus which caused the authorities to decide to take matters in their own hands, but the Sea Salvage company's boat, under command of Dr. Carlo Iberte, declined to quit operations and the skirmish took place today, the navy being represented by two destroyers, two torpedo boats, one gunboat and several tugs and lighters.

As fast as the rope guiding the divers to the sunken submarine was dropped into position by the salvage boat it was cut by the admiralty forces. Seven times this occurred and then Dr. Iberte retired for the night. He insists that the admiralty had no right to arbitrarily terminate the agreement and he will be on the job again today.

Yuan Shi Kai to Go to Nanking.

London, Feb. 28—Replying to the delegates' invitation to proceed to Nanking to take the oath as president, Yuan Shi Kai yesterday formally accepted the presidency, says a Peking despatch to the Times, and undertook to proceed to Nanking as soon as circumstances would permit for the ceremony of the inauguration. He feared the possible inconveniences if he left Peking immediately. Tang Shao Yi who is conducting loan negotiations, has approved the proposal agreed to by Great Britain, France, Germany and the United States that Russian and Japanese banks shall also participate in the loans.

London, Feb. 28—The big Vancouver City four per cent. loan which is to be launched here shortly, will be issued well below par. Enquiries are also busy on the London and Paris exchanges for financial backing to build the floating dock at Vancouver.

TO START WORK IN SPRING ON TWO BIG NEW G.N.P. HOTELS

R. C. W. Lett Returns From the Mountains Where He Has Been Deciding on Sites.

STRING OF FIVE HOTELS ON LINE TO COAST

Beauties of Scenery in Mountains Unsurpassed on the Continent.

First class hotels will be built by the G. T. P. along the new line west of Edmonton, opening up to tourists from all parts of the world the new Alpland in the northern ranges of the Canadian Rockies. Preparations which are now being made by the company to establish their hotels at most suitable points foreshadow a great future for the country through which the new line runs, giving access as it does to some of the finest scenery the continent can show.

R. C. W. Lett, who has for some time acted as colonization agent for the G. T. P., has been given charge of the location of sites for hotels on the new line. The company intends to build between Winnipeg and the coast five or six high grade, modern hotels to accommodate their passengers. The principal hotel of the company west of Winnipeg will be in Edmonton, where the majority of tourists will be likely to break their journey before proceeding to the coast.

West of here hotels will be built at Miette hot springs and Mount Robson, two points which will be most sought after by tourists. A station has been built at Fiddle creek, where that stream empties into the Athabasca. From here to the opening is a distance of about ten miles up the valley of the creek, the springs being situated on a small branch of Fiddle creek, known as Sulphur creek. They are in several small basins, the incrustations being yellow, showing the strong sulphur nature. The temperature of the water ranges from 111 degrees to 127 degrees. The springs are situated at an elevation of 1,200 feet above the railway, but will be easily accessible by a winding carriage road passing through magnificent scenery.

Work on the Miette hotel will be commenced this spring. Tourists and others will be able to leave Edmonton at 10 p.m., arriving at the Hot Springs station at 8 o'clock the following morning, and as the work on the hotel is to be begun in a few weeks' time, a splendid health resort, within convenient reach of Edmonton is promised within the near future.

Another hotel will be erected at Mount Robson, the finest peak in the whole of the Canadian Rockies, which is closely skirted by the G. T. P. line.

The track between Edmonton and the Yellow Head pass will be one of the smoothest running tracks in the world. Those who have already travelled on the line as far as Fitzhugh have been loud in their praises of the new line. All through Jasper park the scenery is of the grandest. After passing through the Yellow Head pass the line runs amid green-wooded mountains, the chief feature being Mount Peelee.

This newly opened country experiences wonderfully mild weather, the Chinook winds being most frequent. Some three weeks ago a bear cub was captured on the ice, and fresh bear tracks have been seen in several places.

Work on the G. T. P. hotel in Edmonton will also be begun as soon as spring opens.

SUMMARY OF THE DAY'S NEWS

HOCKEY—Taber was defeated by the Calgary Athletic Club team by score of five to three, but two protests must be steeled before Calgary team can play for Allan cup—Bassano will play Eskimos in Edmonton in March—Canadiens defeat Quebec and Ottawa practically cinches N.H.A. championship—Edmonton ladies team defeated at Red Deer—Eatons must remain in Winnipeg if they win games and meet Alberta champions—Police are investigating death of Edgar Dey.

IN GENERAL—Red Letter cup games tonight—Semi-final in Alberta Lumber Co. postponed—Draws and results at the local rinks—Old Country football—Many trades in lacrosse circles—Radial Railway team reorganizes—O.H.A. champions in former years.

HOCKEY

TABER TEAM BIOGRAPHIES.

The famous Taber "Chefs," champions of the A.A.H.A., have been offered a donation of $800 by the business men of Taber to defray the expenses of playing, if the champions wish to go after the Allen cup, emblematic of the Dominion amateur hockey championship. The "Chefs" are as yet doubtful.

"Who's who" on this remarkable septette which has brought Dominion-wide fame to their town is of momentous interest and a brief sketch of each artist is given herewith:

Goal

Albert G. Cook—Born at Little Current, Manitoulin Island, Ont., age 21, weight 160; has played since he was a kid, and played goal for the senior team at home at the age of 14. He never played any other position. He has been in Taber nearly three years, and is a clerk in the store of Powell and Stephenson. He is no relation to the other Cooks.

Rover

J. Ernest Cook—Born at Silverwater, Manitoulin Island, age 23, weight 165; has played hockey all his life, being one season with Fort William. He taught school in North Alberta, but has been in Taber three years, and is now on the staff of the Taber Times. He is also a good ball player and lacrosse player and all round athlete. He is not related to the other Cooks.

Left

George Baird—Born at Pilot Mound, Man. Has played hockey since he could walk; age 17, weight 160. He has played with his home team four years; played one season with Pilot Mound when they won the amateur hockey championship of Manitoba; has been in Taber two years and is the teller in the Bank of Hamilton.

Right.

Wilbur Cook—Born at Lynden, Ont., age 24, weight 150 pounds, has played less hockey than his brothers, but makes himself a powerful factor in the Cook combination.

Point.

A. B. Cook—Born at Smithville, Ontario, age 28, weight 170; six years in Taber; is a surveyor and has a farm two miles from town; has played hockey with Olds and Calgary, and is an excellent lacrosse player. He handles the reins of the Taber hockey team.

Cover.

Lloyd Cook—Born at Lynden, Ont., age 22, weight 165; played with Milton, Ont., three years ago, when the team there got into the finals of the intermediate O.H.A.; received an offer from Saskatoon professionals to play this season, but refused. He is a very fast lacrosse player as well as hockey.

Centre.

Leo Cook—Born at Teeterville, Ont., age 20, 145 pounds; played with Simcoe, Ont., last year.

It is interesting to note that the last four mentioned Cooks are of the same family, the sons of the Rev. Cook, Methodist minister, Port Dover, Ont. J. E. Cook and A. G. Cook are of different branches, respectively.

BASSANO TO PLAY HERE.

Bassano and the Eskimos will play in Edmonton on March 6th and 8th. The Bassano team, it will be remembered, is still claiming the championship of the Southern league on the strength of the protest lodged by them on the last game which they say was stolen from them by the Calgary A.C. Had the score been as the Bassano team claim, it should have been the league would have been a tie between the only two teams in it. In any case there can be very little difference in the strength of the two teams.

It will be the first chance Edmonton fans will have to get a line on the outlaw league. There is also a possibility of another game being arranged with the Taber team. The fact that the Taber bunch defeated the Eskimos in the crucial game makes it interesting for them to meet again.

CANADIENS COME BACK.

Montreal, Feb. 28—Canadiens came back to form tonight after a prolonged slump which has left them hopelessly out of the N.H.A. championship race, and defeated Quebec 6 to 3. It was a hard fast game, the Canadiens being a little the speedier while their goal tender Vezina combined fine work with excellent luck and picked out many efforts which looked like sure goals. On the whole the game was not a rough one. Payan got a knock over the head which sent him to the ice for the count, and on recovering he shortly got into a fistic encounter with Oatman, which lead to them being banished. Otherwise the match was not over strenuous.

OTTAWA WINS N. H. A.

Ottawa, Feb. 28—Ottawa practically won the championship of the N.H.A. tonight by defeating the Wanderers here 6 to 4. The goal which first gave them the lead was a flukey shot by Lake, which struck the inside of the Wanderers goal posts. This was in the second period. In the third period they established a three-goal lead, which the visitors could only reduce by one. The game was somewhat rough. Russell and Shore wound up the game with a fight in centre ice, while Odie Cleghorn cut down Kerr with a nasty crack after the latter had fouled him and got away with it.

TABER TEAM DEFEATED.

Bulletin Special Service.

Calgary, Feb. 28—The spectacular playing of Chuck Clark in the Calgary A.C. nets and the weakness of A. G. Cook, who occupied the corresponding position for the Taber team, decided last night's qualifying game for the Allan cup. The score stood, Calgary 5, Taber 3. Outside of the work of the Calgary goal tender the Taber team outplayed the locals. Clark stopped no less than nineteen shots in the first half, while the Taber net guardian was called upon only six times. On two of these occasions he was found wanting. Clark allowed but one goal out of the twenty shots to register.

In the second half the Taber team had the majority of the end ice play, but the goalkeepers decided the contest. Clark stopped ten out of twelve shots; in contrast to this A. G. Cook allowed three out of six possible shots to score.

The contest was witnessed by the largest crowd who have ever witnessed a hockey game in the province. Two thousand five hundred people watched the contest while as many more were turned away because of lack of accommodation.

The game was played under protest, the Calgary team played a man who had been signed early in the season by the St. Mary's team of the A.H.A., but who jumped his contract to play with the A.C. outfit. Another issue of the protest that the Calgary A.C. were not the actual champions of the Southern Alberta league, as Bassano, the other team in the league, had registered a protest, and if it had been won by the Bassano team, another game would have been necessary to decide the championship. The executive of the league had never given a decision on the protest. This protest was forwarded to Wm. Northy, the cup trustee.

Word was received before the game from Northy that the winner of the game should play in Winnipeg against the Vics on Tuesday and Thursday of next week.

EDMONTON TEAM DEFEATED.

Bulletin Special Service.

Red Deer, Feb. 28—The Edmonton girls' hockey team went down to defeat again this evening by a score of 3 to 0 before the Red Deer girls.

The line-ups of both teams were practically the same as during the Edmonton game, and although the evening was cold, a large crowd turned out, confident that the local girls would be once more winners, and their expectations were gratified.

A ball has been arranged for after the match in honor of the fair visitors.

EATONS MUST REMAIN.

Winnipeg, Feb. 28—(Special)—Eaton's hockey team have received instructions from Wm. Northay, trustee of the Allan cup, that if they defeat the Winnipeg Victorias, they must remain in Winnipeg to play the Alberta champions on Tuesday and Saturday next week.

POLICE ARE INVESTIGATING.

Halifax, Feb. 28 — It was reported here tonight that the death of Edgar Dey would result in additional prosecutions in connection with the row which occurred during the Crescent-Halifax game of January 6, and that police officers would be called to task for their neglect to give deceased the proper attention, following his arrest on a charge of striking Patsy Seguin, of the Crescents. Dey, while playing for the Socials got into an altercation with Seguin, and blows were exchanged. Seguin was badly cut and to quell the disorder, the police selected Dey as their victim, and locked him up on a charge of assault. Edgar informed them that he had been hit on the chest but was not given medical aid that night, and did not secure his release until the following morning, afterwards being fined $2 and costs for striking Seguin. Seguin was not prosecuted, though it turned out that he had struck the more serious blow. Dey died as the result of an abcess which followed the injury.

Today's belief was to the effect that Seguin would be taken into custody on a charge of manslaughter and that Mr. E. F. Dey, Edgar's father, would institute proceedings against the city police. The grief stricken father however, remarked that he would take no action and that such could not give him back his boy. The matter now rests with the local authorities, but it is doubtful if they will act. Seguin was recently released by the Crescents and is understood to be at his home in Montreal.

Dey's case aroused much sympathy throughout the community, and there is the deepest sympathy for his father and mother, and sister, and for his fiancee, who were with him during his last days.

As a hockeyist, Edgar Dey was one of the fastest and most finished exponents in the art of stick handling ever bred in Ottawa. He first came into hockey prominence with the old Aberdeen, once the greatest school for developing players in the country. He played with that team when the Gilmore brothers, Arthur Moore and Frank McGee were in intermediate hockey.

In 1906 he went west and played with Brandon, and later journeyed south to Pittsburg where he was one of the stars among the many prominent Canadian experts in the Smoky City at that time.

In 1909 Dey was signed up by the Ottawa club, when Bruce Stuart, Fred Lake and Albert Kerr first came to the local team. He played in a number of games, but for the most part was used as utility man. The team was considered the best hockey aggregation that ever represented Ottawa.

The last two seasons Dey was playing professional hockey in the Ontario league, being with Waterloo, on each occasion. He went down to Halifax the early part of the present season, the first game he ever played hockey in the east.

Dey was also recognized five years ago as the best single blade paddler in the world. He won both the American and Canadian titles in the same year, and would be in the canoe racing game yet had he not been professionalized.

FOOTBALL.

RADIAL RAILWAY TEAM.

The employees of the Edmonton Radial Railway company held a meeting last night for the purpose of reorganizing the football team. The following officers were elected:

Hon. Pres.—Robert Knight.
President—Thos. Ferrier.
Sec.-Treas.—Chas. Wentworth.
Committee—J. Walker, C. Dawes, W. Patmen, J. McCready, and W. Rennie.

There will be a lot of new faces on the line-up this year it is expected, as the club has a great amount of new material to draw from. The team should be much stronger than last season when it played a good game throughout the season.

YOUNG JONES CHALLENGES.

I, Young Jones, the well-known lightweight fighter of the west coast, am ready at any time to make a match with Billy Allen or Joe Bayley for a side bet of $500, and a purse offered by any club, and the winner to take all. Hoping Bayley or Allen gets busy and comes forward with their money, or leave it at any newspaper office, and I will be there to cover it and draw up the articles. I remain yours, Young Jones, Windsor Hotel, Red Deer, Alta.

OLD COUNTRY FOOTBALL.

London, Feb. 28—Westham United were beaten today in the re-played cup tie by the overwhelming score of 4 goals to 0, by Swindon Town, after drawing last Saturday. Swindon will meet Everton in the fourth round.

First Division—
Sunderland 0, Sheffield Wednesday 0.
Southern League—
Crystal Palace 0, Plymouth Argyle 1.

IN GENERAL

COBB HAD BOATSMAN.

Detroit, Feb. 28—Ty Cobb, world's champion batsman, was seen in a new role yesterday, when as a newly recruited "Hand" on the iceboat Detroiter, he essayed to skid over the frozen surface of the Detroit river. As a preliminary to the novel experience, he tested his ability as a broad jumper in trying to leap over a crack in the ice. He fell short and fell in, getting thoroughly soaked.

Feeling that no one could do worse on runners, Cobb boarded the ice craft for a trial spin. As a decorative member of the crew Ty was a success, although his inability to understand a sudden order of Capt. Mitchie, having something to do with a mysterious bit of rigging known as the "Sheet", Cobb said he saw a sail but no sheet, caused the craft to capsize while going at the rate of about sixty miles an hour. A fifty-foot slide along the ice, which was covered with an inch or two of slush, resulted, but as Cobb had opined at the start, he couldn't get any wetter, so there was no harm done.

"This is almost as fast as my time around the bases," the Perogian remarked after the boat was righted.

O. J. C. SPRING MEET.

Toronto, Feb. 28—Secretary Fraser, of the Ontario Jockey Club, announced that entries for four of the most important events of the spring meeting will close on Friday of this week. Two are for province breds, two are open, and for the latter he expects larger fields than usual, the events are:

King's Plate, estimated value $6000, one mile and a quarter.

Stanley Produce stakes, $2500 added, one mile and a quarter.

Breeder's stake, $1500, added, one mile and a furlong.

Maple Leaf stakes, $1500 added, mile and a sixteenth.

FITZSIMMONS DEFEATED.

New York, Feb. 28—Knockout Brown was generally considered by ringside judges to have had the better of every round in a bout with Young Fitzsimmons, a local lightweight at the Long Acre A.C. tonight. The latter was 10 pounds lighter than Brown and appeared afraid of his opponent, covering himself during most of the bout. With rushing attacks Brown had him in a precarious condition in the tenth round.

SOME LACROSSE EXCITEMENT.

Toronto, Feb. 28—Lacrosse deals are in the air locally. Torontos have been after Harry Murton to manage the Scarboro team. They offered Klab for him, and Charlie Queery refused to consider it. The Tecumseh head came back with an offer of Murton for Wamick, which hangs fire. Then he made the street railway men a sweeping of Murton, Graydon and Kinsman for Power, Kalb, Wamick and Hess, and was refused by the Torontos. Kinsman and Graydon are the Tecumseh holdouts.

Calgary, Feb. 27—Deputation from Fort Alberni has been assured by the government of incorporation as a city. The Empress Hotel here is now putting a roof on in addition to its 82 bed rooms. There are waiting and dining rooms on the ground floor.

AROUND THE CITY

A. R. Lawrence of the Bijou Theatres left for Vancouver yesterday on a two weeks' business trip.

No. 1 Troop of the 19th Alberta Dragoons will hold a smoker on Thursday night at the armories beginning at half-past eight o'clock. All members of the regiment and friends are cordially invited to be present.

James McKernan, sub-agent for Athabasca Landing, was summarily discharged from his position on Tuesday. This is the seventh time in one week that officials in this district have been dismissed by the Conservative government. Mr. McKernan's successor has not been announced.

Considerable disappointment has been caused in local exhibition association circles yesterday by the announcement from Ottawa that the Dominion fair of 1912 will be held in Ottawa. Despite the lack of the Dominion government subsidy, it is the intention to make this year's exhibition the "best ever" and the largest stock show and race meet in the prairie provinces.

Changes for Customs Staff.

D. Dyer, an assistant clerk, has been appointed acting chief clerk of customs and express, in charge of long room, mail and express in the customs office. This marks a change in the local office, as hitherto F. A. Osborne, collector, has had full control of all departments as the collector has had in other cities. A. Clark, landing waiter, has resigned, and James White has been appointed to the vacancy. E. A. Brown, clerk in the customs department, has also resigned.

SERVICES CLOSE TONIGHT

The closing meeting of the special services being held in Westminster church will be held this evening at eight o'clock. Rev. Mr. Craig will give his final message. The subject will be, "The first duty of every Christian." Mr. McBretney will sing one of his solos which at Toronto were the means of the conversion of an outstanding infidel.

All who have been helped by these meetings are especially urged to be present.

WANTED TO KILL MASONS

Calgary, Feb. 28—Suffering from the hallucination that it is his duty to kill a prominent Mason every three years, at least, and with a charge of murder hanging over him in Montana as the result of this hallucination, Julis K. Buck is being held by the city police on a charge of insanity. The arrest was made at the instigation of the immigration authorities and Buck is to be deported as soon as the necessary papers are received.

THE WEATHER

Toronto, Feb. 28—Pressure continues all over the Maritime provinces and decidedly high over the northwestern portion of the continent. Cold weather now prevails generally.

MOCK PARLIAMENT AT Y.M.C.A. A SUCCESS

Before Crowded House, Dormitory Men Gave a Successful imitation of Legislative Proceedings—Government Was Voted Down.

The mock parliament given by the men of the Y.M.C.A. dormitories last evening was a most successful imitation of the real thing. The affair was carried out in strict accordance with parliamentary procedure as far as possible. The legislature was modelled after the provincial legislatures and was dignified by the presence of a lieutenant governor, speaker, clerk, supreme court judges, aide de camp, sergeant at arms, and guard of honor in full regimental regalia. The procedure was similar in many respects to that which takes place in the provincial legislature of Alberta on the opening day of the house. The speech from the throne was read and the house resolved itself into a debate on this speech. Addresses in support of the vice-regal speech were delivered by the premier and the cabinet ministers, while strenuous objection was taken to it by the leader of the opposition and his supporters.

The opposition found particular fault with it because it did not promise woman suffrage. In view of this fact an amendment was moved expressing regret that the address contained no such reference. At this point in the proceedings the doors were suddenly broke open and a mob of militant suffragettes burst in upon the floor of the house bearing placards and shouting "Votes for Women." The guard of honor was called into service, the suffragettes being forcibly ejected.

The invasion of the house by the suffragettes was a very laughable scene and was much appreciated by the audience. On a vote being taken the amendment was lost. A resolution of lack of confidence was then introduced by the opposition. This resolution carried and the house adjourned amid loud cries of "Resign, resign," from the opposition.

The mock parliament was held in the gymnasium. Both the gallery and floor were crowded. The room was tastefully decorated. Flags were strung all around the gallery, while large white streamers hung from the ceiling. The speaker's chair was situated on a platform with a large Union Jack behind.

Those who took part are as follows. Lieutenant governor, E. G. Duncan, speaker, N. R. Lindsay; clerk, E. J. Crowle; supreme court judges, J. W. G. Logan, E. M. P. T. Fuller, E. H. Colk, and G. Smith; aide de camp, Major McGregor.

Members of the government cabinet: Premier, A. W. Wilson; minister of agriculture, A. W. Skenfield; minister of finance, W. E Hegler; minister of the interior, P. S. Bailey; minister of labor, R. C. Cerdingly; minister of public works, T. A. Graham; minister of public nuisances, F. A. Hillard.

Members: I. Schrag, W. H. Walsh, S. T. Hindle, P. O. Hammond, F. S. Draper, F. S. George, A. E. Ludwig, J. W. Rowntree, W. W. Lailey.

Members of the opposition: W. W Hutton (leader), J. R. H. Jackson, W. E. Clarke, A. S. Matheson, W. N. Smith, A. S. S. Grant, O. Newman, J. A. May, H. Higginbotham, H. A. McCormack.

$840,000 FOR SCHOOLS IN GREATER EDMONTON

Bylaw to Raise This Sum Is Passed by School Board—Hudson Bay Company Will Require Cash for School Sites.

A special meeting of the Greater Edmonton school board was held last night, W. Ramsey, chairman, presiding. There were also present Dr. John Park, Dr. Crang, S. A. G. Barnes, W. H. Clarke, J. J. McKenzie and the following officers of the board: Dr. Dunn, medical inspector, J. McCaig, superintendent of schools, G. A. McKee, superintendent of schools on the south side; G. E Turner, building commissioner, and W. H. Bradey, secretary-treasurer. Miss Bessie Nichols was absent owing to indisposition.

The board approved a bylaw providing for the raising of $840,000 by debentures repayable by 40 consecutive annual instalments, for the purpose of building brick, stone and concrete school buildings and purchasing and improving school sites. It was resolved that the debentures be issued at the rate of 4 1-2 per cent.

Offer to Hudson's Bay Company.

A letter was read from J. Thompson, land commissioner of the Hudson's Bay Company regarding the offer of the board for the purchase of sites which he stated had been submitted to the governing committee of the company. He added that it was understood that the purchase price of the sites would be paid as soon as the offer was accepted.

Mr. Bradey pointed out that the letter meant that the offer would be regarded in the nature of a cash proposition.

The chairman, Mr. Ramsey, said that was the way the board intended the offer.

The question of the proximity of the sites to a proposed street car line was mentioned by Mr. McCaig, but the board did not consider they could act in the matter at present.

Recommendations Accepted.

The following recommendations were made to the board by the school management committee, which held a meeting prior to the meeting of the board: That Miss J. E. Fraser be appointed vice-principal of the King Edward school, south side, her appointment to date from February 1st, 1912, Miss J. Porter to be placed under the schedule at fourth year standing, to date from February 1st; Miss A. D. Lyle be appointed vice-principal of Queen Alexandra school, south side; Miss Maude Smith and Mrs. M. I. Stephens to be placed on the list of substitute teachers. That the McCauley school be opened for use on Monday, March 4th.

The superintendent was authorized to alter the boundaries of the Taylor school area so as to transfer about 50 pupils to the McCauley school. Relief will also be given to the High School.

Taking in South Side.

The report of the building commissioner as to the system of plumbing, heating and ventilation to be installed in the Parkdale and Irwin schools was adopted. It was moved by Dr. Crang that tenders be called for the erection of a frame school on, or adjoining, block 3, Walter Estate. The motion was passed.

Mr. Clark also moved that the building commissioner, the truant officer, and the medical inspector be requested to include the south side schools in their districts; also that Supt. McCaig be requested to make such arrangements as will be necessary to enable him to extend the work of supervisors to include the schools on the south side. All these motions were passed.

Mr. Clark, in answer to a question from Dr. Crang as to the necessity of an increase in salary for the officials affected, said that if the official was content to perform the extra duties with the same recompense, then it was to the board's advantage, and at any rate it was the official's place to see to that end of the matter.

Dr. Crang added that it was the place of a competent board to advance salaries without making it necessary for the official to ask for it.

THE FINANCIAL AND COMMERCIAL MARKETS

Winnipeg Grain Market.

Winnipeg, Feb. 28—After several days of bearish news, heavy receipts, declining markets and general depression it was a case of snow to the rescue of the disgruntled bull. His report of reserves in farmers hands was bull dope of the strongest calculated to toss any market heavenward. The exact figures with comparison with last year were:

Wheat—98,346,000; last year 179,690,000.

Corn—780,471,000; last year 1,265,634,000.

Oats—222,366,000; last year 421,535,000.

The response to this was a 2 to 7 1-8 jump on Chicago wheat options: 7-8 to 1 1-8 on corn and 5-8 to 7-8 on oats. Minneapolis jumped 2 to 2 1-8, and there was almost immediately an improved demand by millers. A few crop killing stories from the winter wheat belt helped the merry game along. The advance in Winnipeg one cent all round on the options. There was, however, nothing bullish in continental or British cables and no improvement in export enquiry or cash demand. Receipts were very heavy. Actual inspections at Duluth 183 cars and out of these 45 were contract. The bulk of the wheat going into Duluth is still inspected at Winnipeg.

Following are today's quotations:

Chicago Grain Market.

Chicago, Feb. 28—Sensational figures on farm reserves, the lowest in years, excited wheat traders today and made the market soar. The close was strong at a net advance of 7-8c to 1 1-8c. The farm reserve estimates that had such a stirring effect on the wheat pit came from two Chicago houses. According to different authorities the reserve was 100,000,000 bushels a shortage of 79,000,000 bushels. It did not clearly develop until the session was almost at an end that the depletion amounted to such a huge total. The news at first was vague. Shorts, however, grew alarmed and commission buying set in at a lively rate. When the definite figures were learned, though, little time was lost in grasping their full significance. An opinion which received much attention was to the effect that aside from requirements for seed the farmers now held not over 15,000,000 bushels. Under the scare resulting the market went wild, bulging the hardest in the last fifteen minutes before the final gong. Simultaneously Kansas City reported sales of No. 2 and at the highest price on the crop, and there was word from Minneapolis that flour stocks were the scantiest in five years.

Farm supplies remarkably light in corn as well as in wheat started the coarses cereal on a steep climb. Besides there was a reduction in movement in the southwest and ocean freights showed a drop. Cash grades were firm.

OLIVER FIGHTS FOR LOWER RATES

(Continued from Page 1)

W. A. Buchanan (Lethbridge) said the question involved in the resolution was of vital importance to the west and to Canada as a whole. He said that it was evident that the member for Vancouver was not acquainted with conditions in the prairie provinces. He asserted that there has been a ready market for Canadian grain in the Minneapolis market.

A Reason for Car Shortage.

One of the reasons for the car shortage, he said, is that the railways have not the motive power or the cars necessary to move all the crop. The railways are to a considerable extent responsible for this by inducing settlers to come in with the promise of branch lines which have not been constructed.

Hon. G. E. Foster's Reply.

Hon. G. E. Foster, in replying to the arguments of Mr. Oliver, said he failed to see any sense in the greater part of the speech made by the ex-minister of the interior.

A great part of his speech dealt with conditions which had been brought about in the West by circumstances over which Providence alone had control. The house could not pass a want of confidence motion in Providence.

Providence, according to Mr. Oliver, had first cut a slice off the expectation of the West, which had expected a crop of 255,000,000 bushels and had only given 175,000,000.

Touching on the argument that reciprocity would have brought relief, Mr. Foster said that there was no use in crying for the moon. The people of Canada had decided that they do not want reciprocity, and the difficulties of the West would have to be settled in some other way.

As for the government it proposed to set about remedying the troubles of the West as quickly as possible. Would the opposition help, if so they could not do so by preaching cleavage between the farmers and the manufacturers. The minister then repeated the advice given by him in a former speech to the effect that the farmers of the West could help themselves to a great extent by going in for mixed farming and by providing proper storage facilities for their grain.
